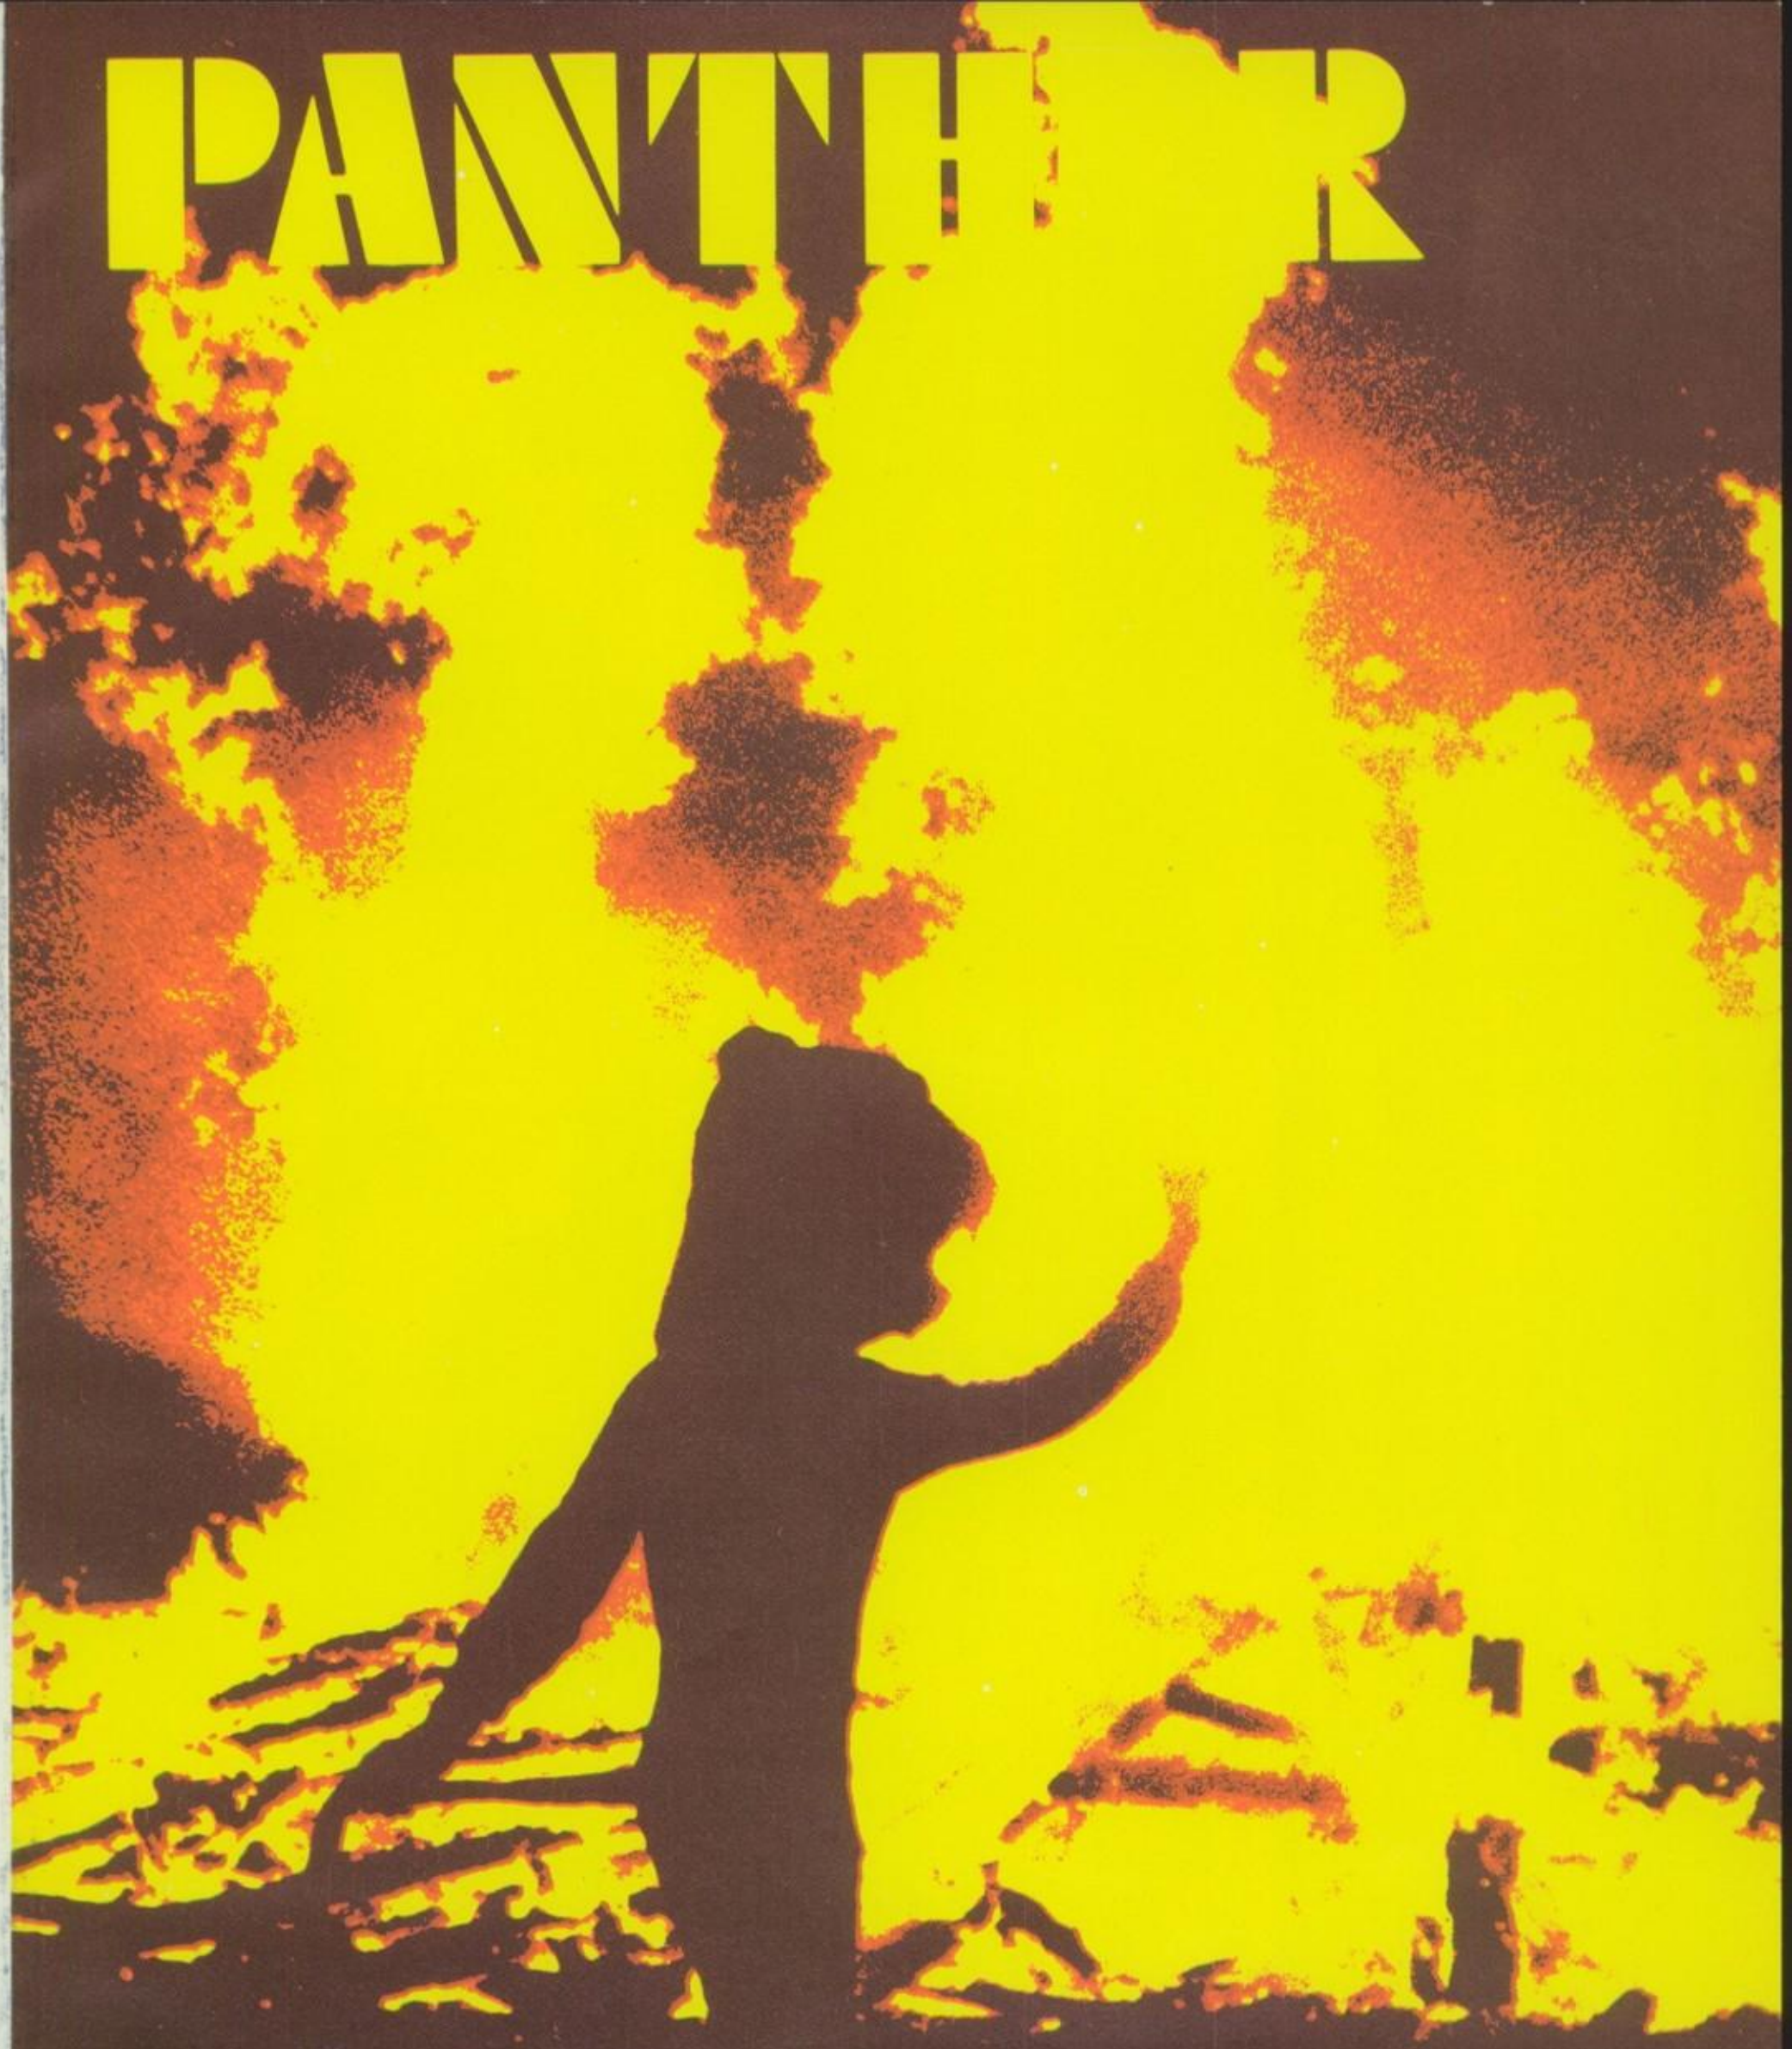
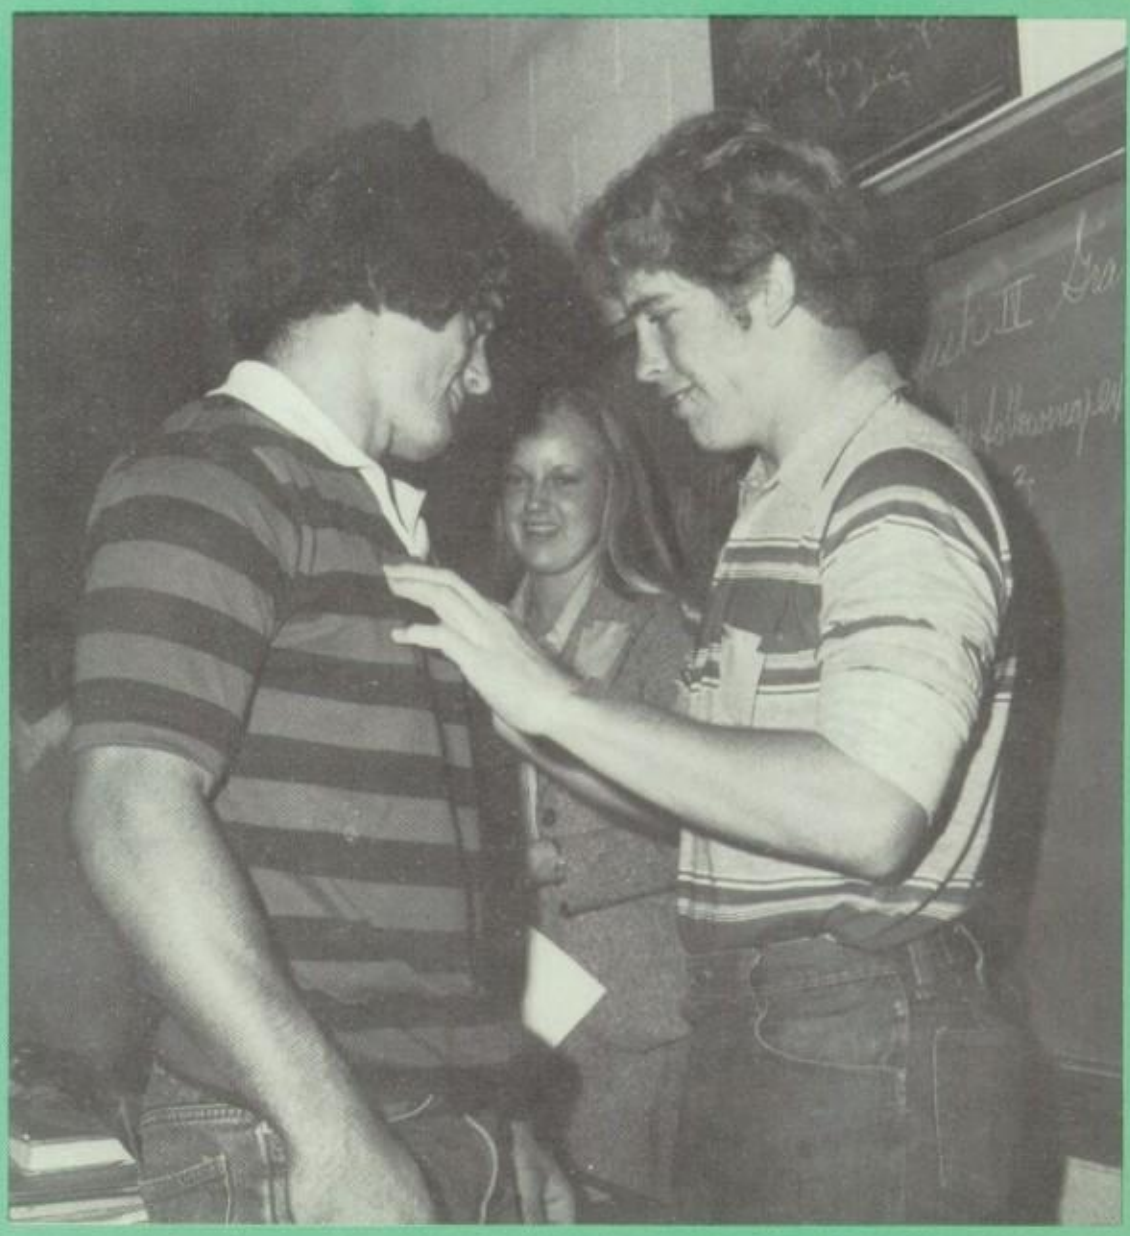
PANTHER

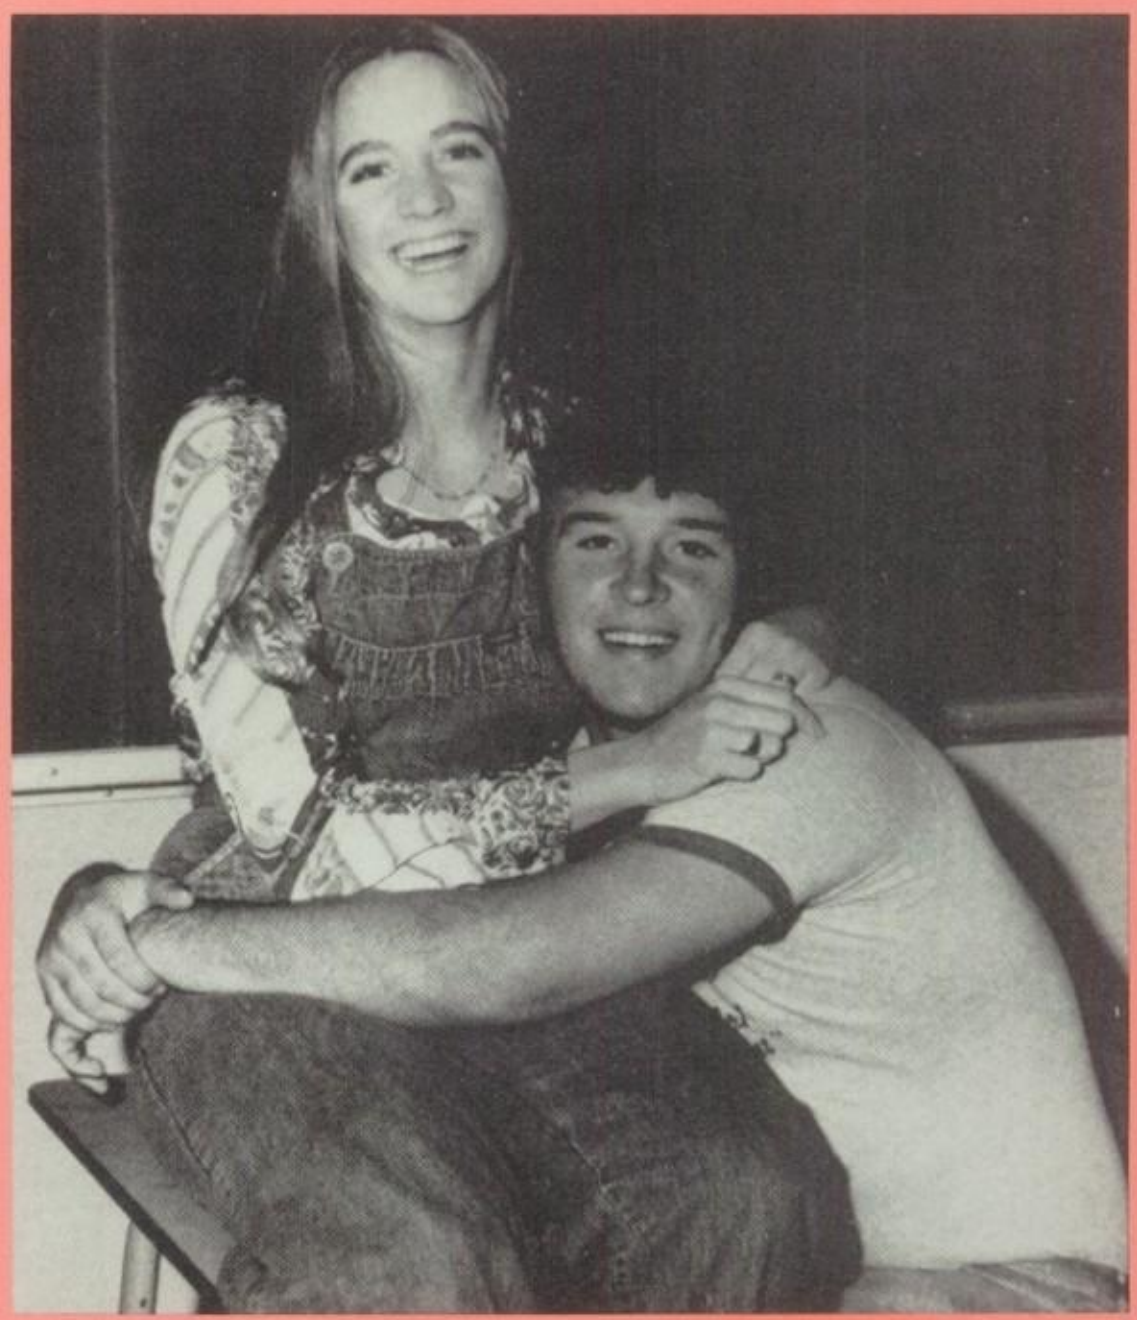


Permian High School
Odessa, Texas
Volume XIX, 1978

Senior Office
Beth Ann McDonald

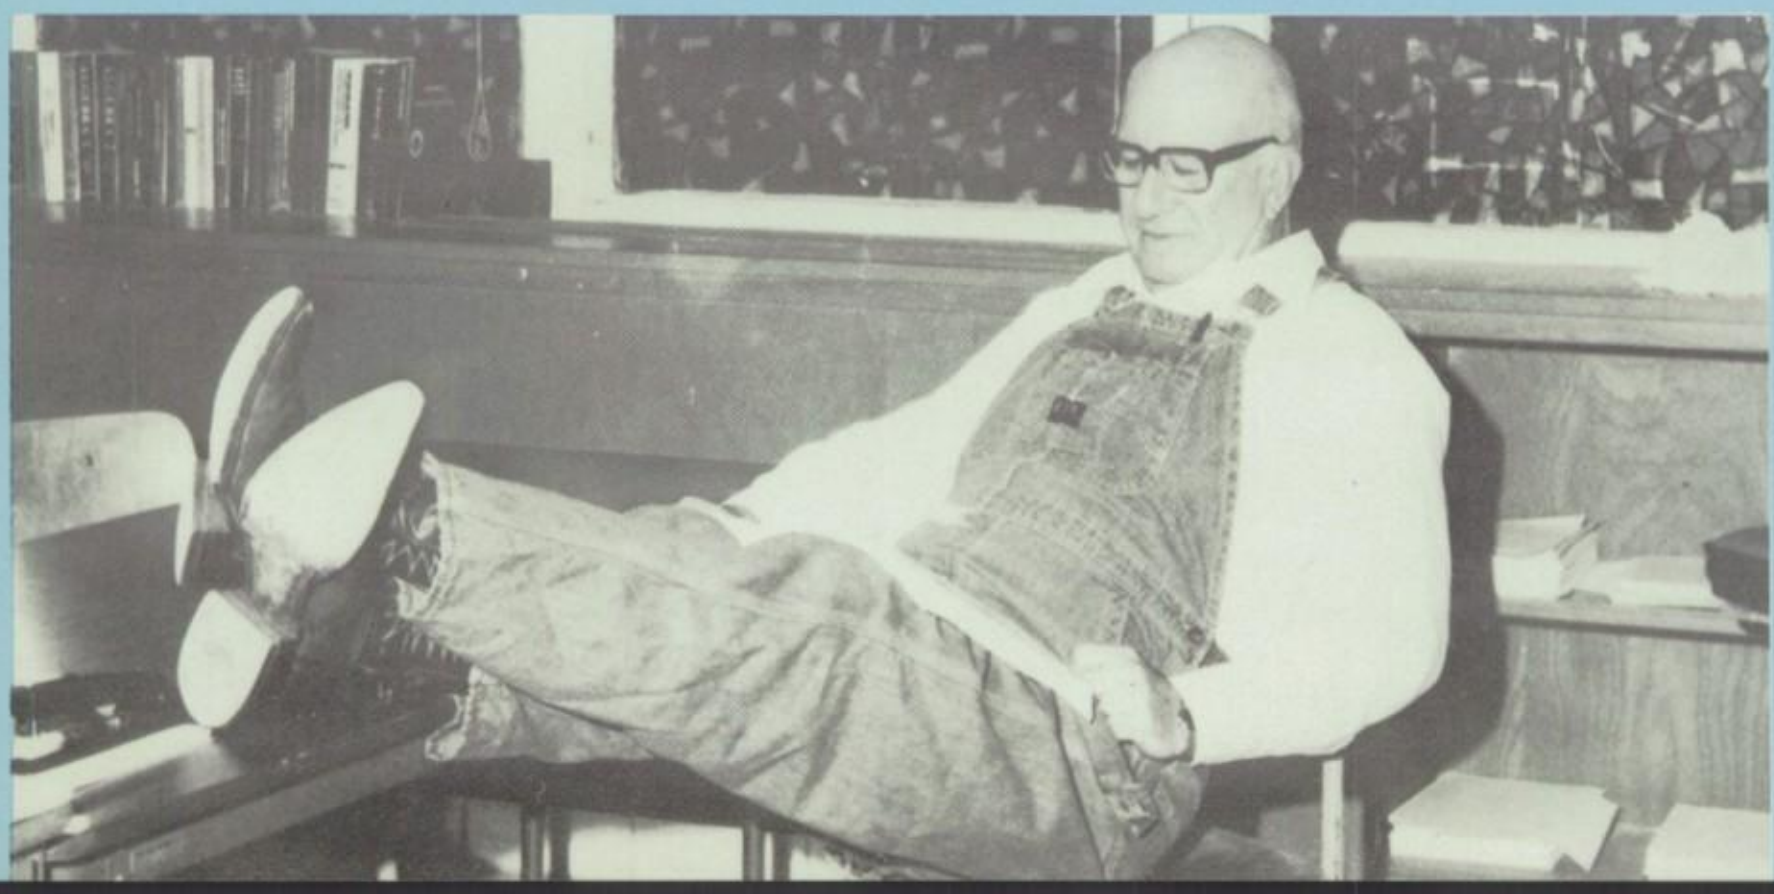


The good life at PHS entails much group participation. From spirit organizations to student clubs to musical groups. Permian abounds with opportunities for students to get involved. Many hours are spent with other members enjoying a common interest. Friendly activities inspire students to experience the good life.



Life at Permian is made a little more interesting because of the opposite sex. Those Saturday night dates, a lot of hand-holding, and that bit of fighting creates the good life.

Those quiet moments, the hours of solitude, the times by yourself — these are in the perimeter of the good life. The corners of our minds are developed through thoughtful meditation. Private reflections of the inner soul succeed to form the good life.



Of all the individual people at Permian High School, there were some who were awarded distinct honors. Being elected as a sweetheart or a class favorite and winning District, Bi-district, and Quarter-finals in football will be meaningful to many. Some excelled scholastically and achieved a role in the Senior Hall of Fame. Winning these distinct honors is just a small part of the good life.

Many seniors, not necessarily the most academic, tend to lead to the point of excellence. We congratulate you, the members of the Senior Hall of Fame.

Seniors . . . special people feeling superiority, fun, excitement, uncertainty, and fear, but always achieving. It is our time to grow from a child to an adult and make our dreams become realities. For some, it is the last time to share experiences with people we know. These are the faces of the class of '78 and the good life that we lived.

Senior Board

"Bigger and Better" is the goal of the 1978 Senior board. Board members have been working industriously on more money making projects for the '78 Senior gift. Spirit Flowers, Panthergrams, and other numerous projects were sold throughout the year. These people also used their imaginative talents on the Senior Assembly. This is one of the biggest events in the Seniors' year and so much hard work and time is put in by the board. The Senior board's wish, as well as their classmates, is to leave memories of the "Good Life" we had in 1978.

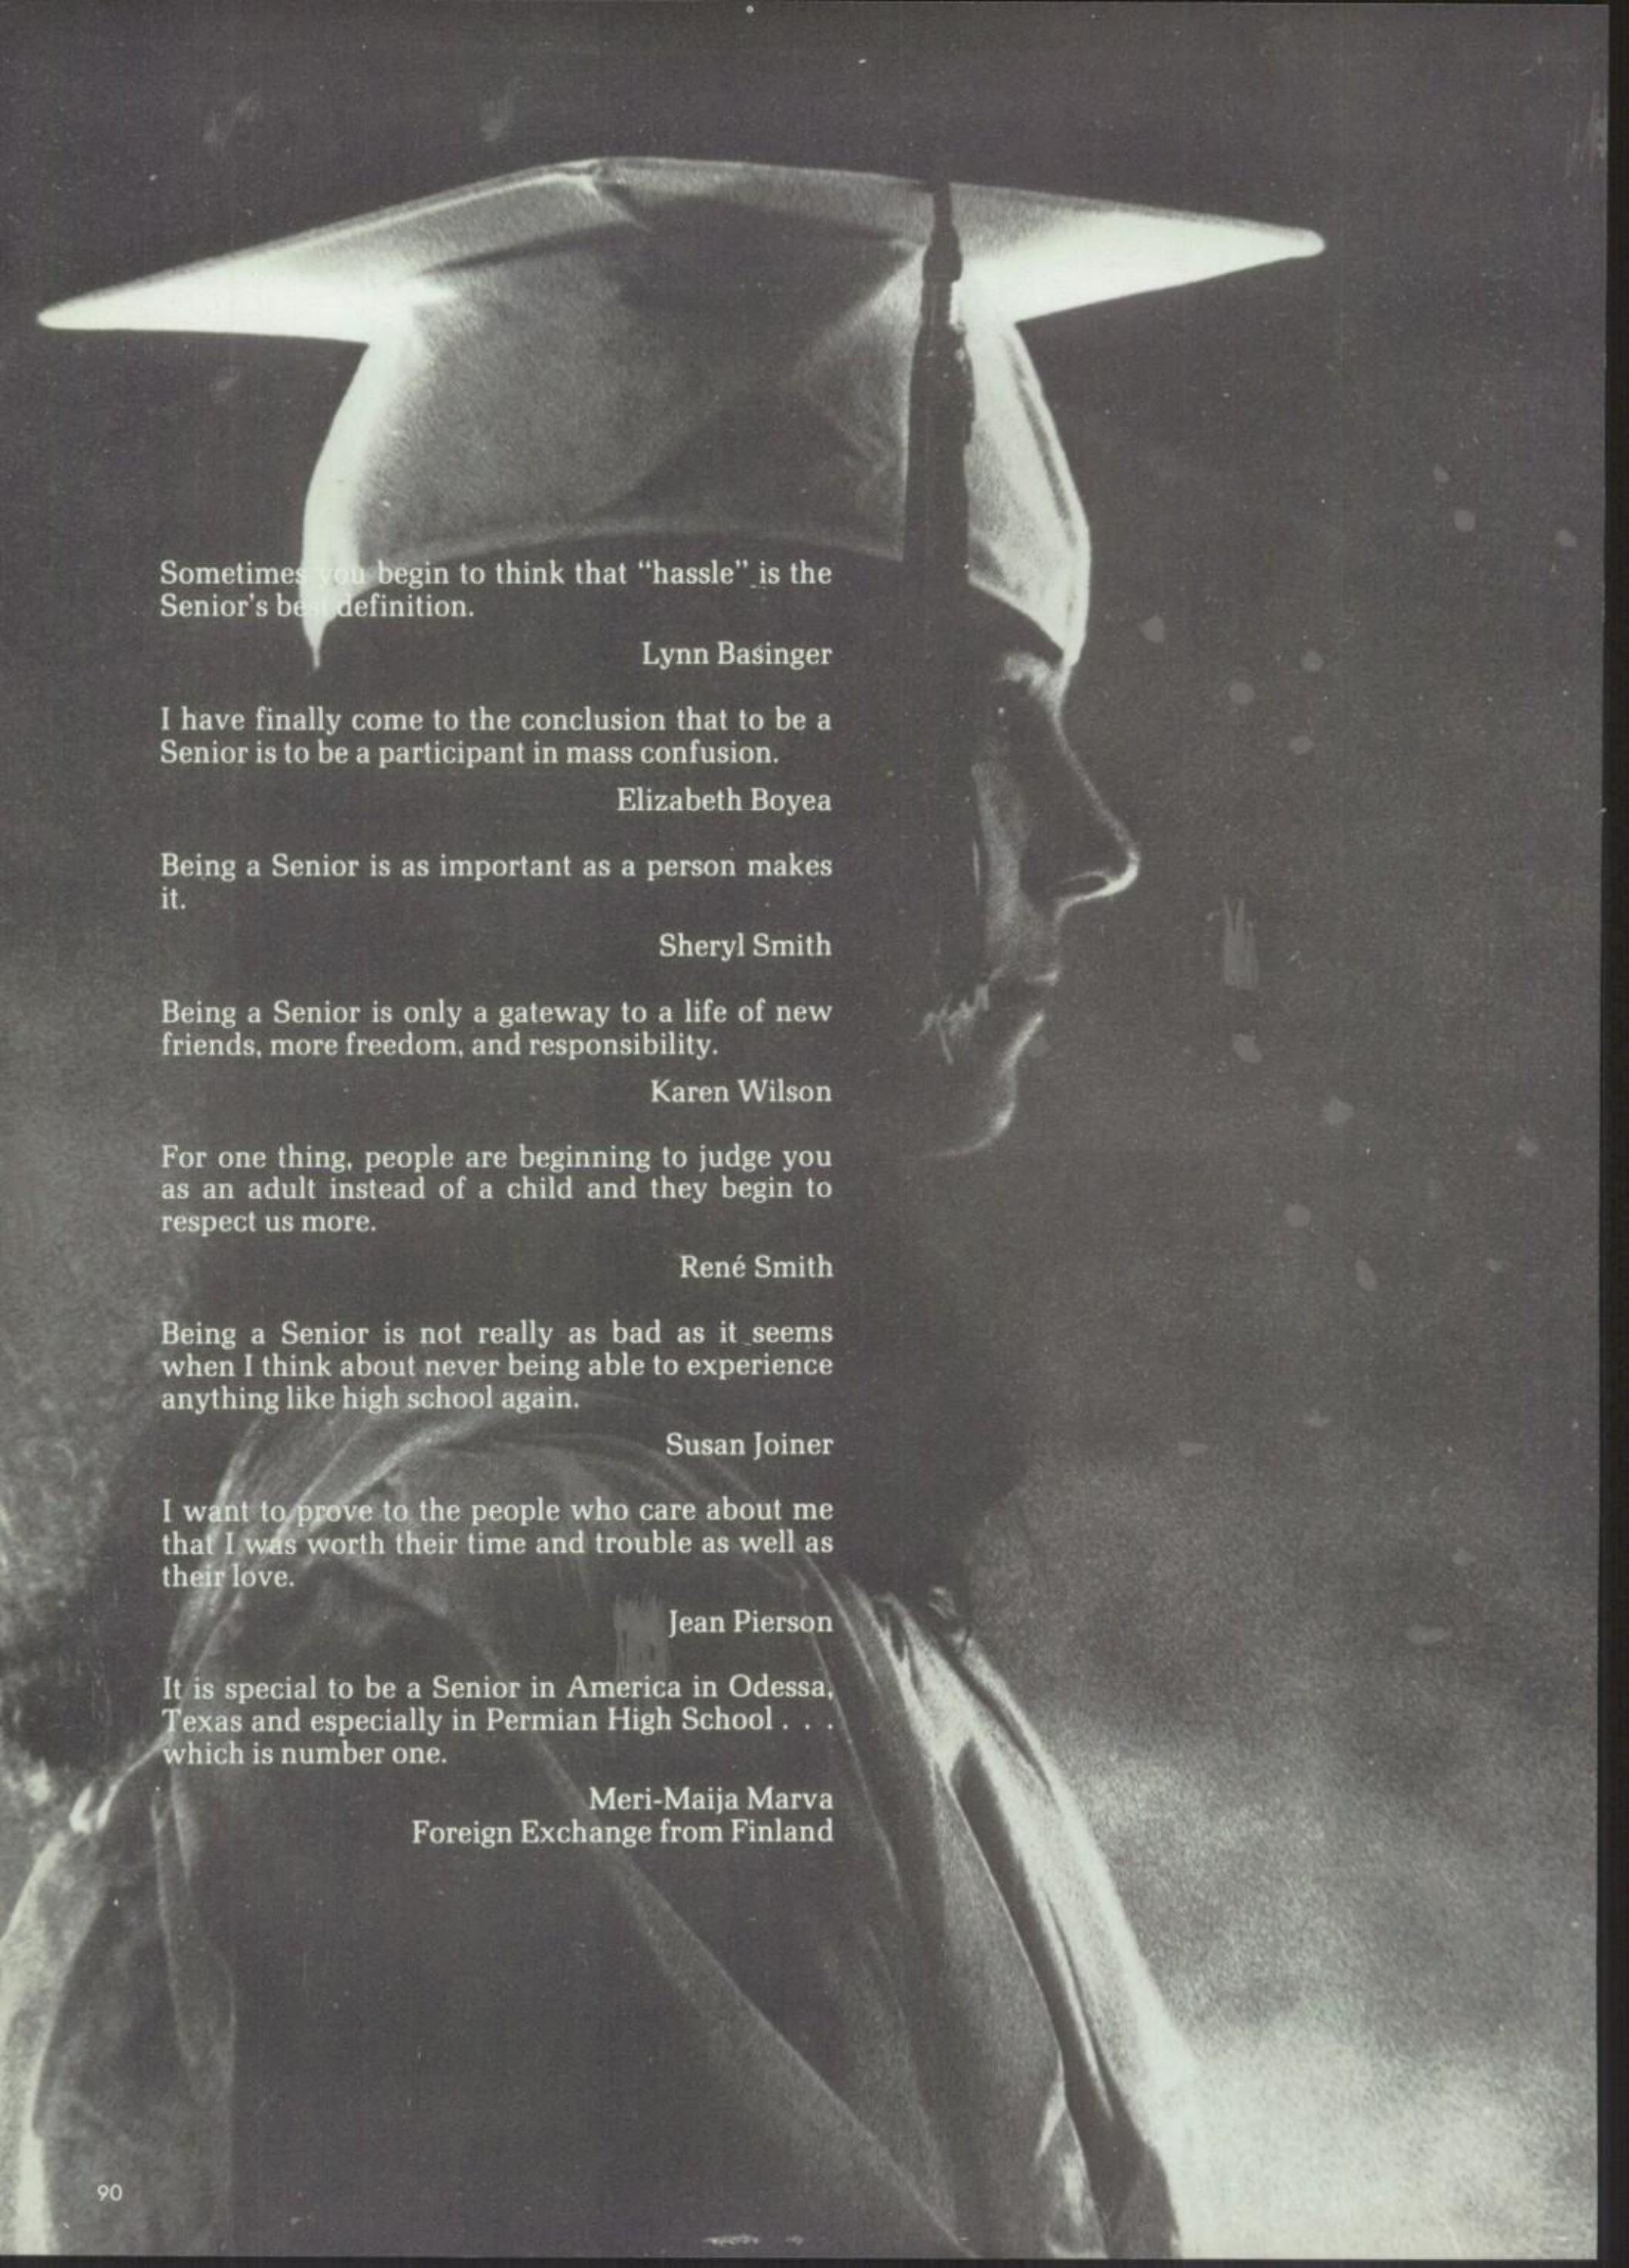
A typical Senior Physics class.



Sometimes you begin to think that "hassle" is the Senior's best definition.

Lynn Basinger

I have finally come to the conclusion that to be a Senior is to be a participant in mass confusion.

Elizabeth Boyea

Being a Senior is as important as a person makes it.

Sheryl Smith

Being a Senior is only a gateway to a life of new friends, more freedom, and responsibility.

Karen Wilson

For one thing, people are beginning to judge you as an adult instead of a child and they begin to respect us more.

René Smith

Being a Senior is not really as bad as it seems when I think about never being able to experience anything like high school again.

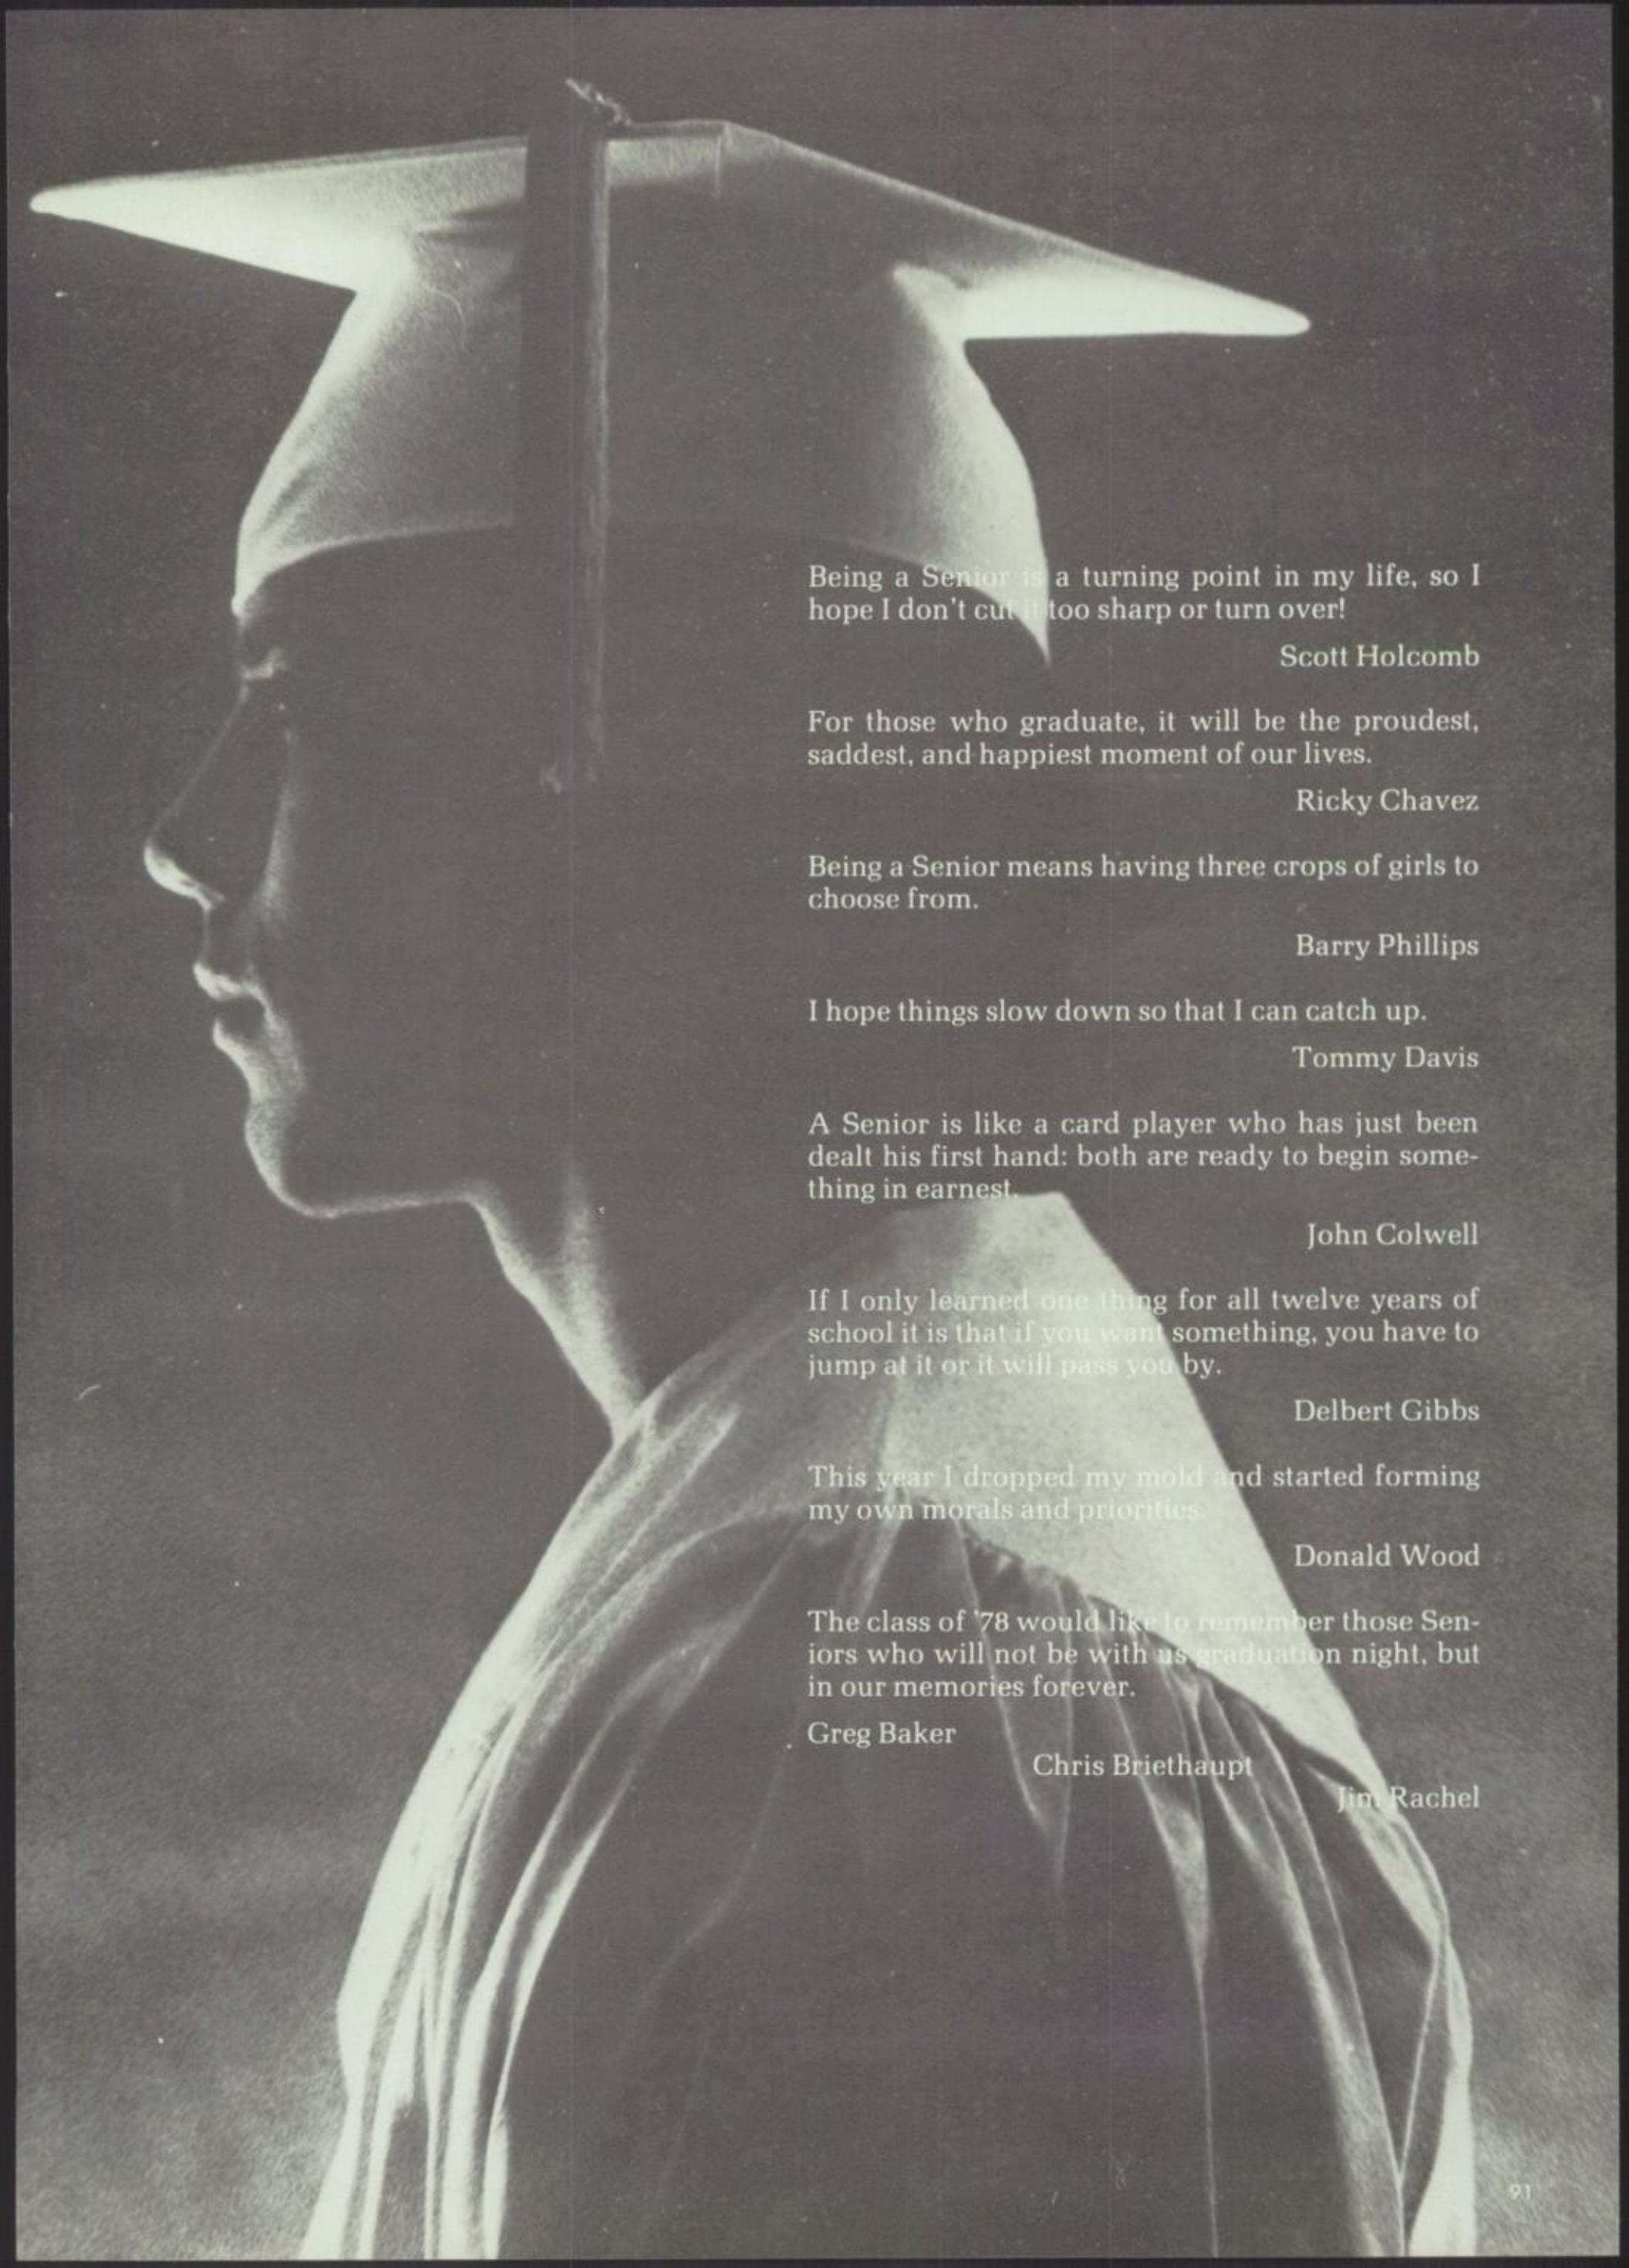
Susan Joiner

I want to prove to the people who care about me that I was worth their time and trouble as well as their love.

Jean Pierson

It is special to be a Senior in America in Odessa, Texas and especially in Permian High School . . . which is number one.

Meri-Maija Marva
Foreign Exchange from Finland



Being a Senior is a turning point in my life, so I hope I don't cut it too sharp or turn over!

Scott Holcomb

For those who graduate, it will be the proudest, saddest, and happiest moment of our lives.

Ricky Chavez

Being a Senior means having three crops of girls to choose from.

Barry Phillips

I hope things slow down so that I can catch up.

Tommy Davis

A Senior is like a card player who has just been dealt his first hand: both are ready to begin something in earnest.

John Colwell

If I only learned one thing for all twelve years of school it is that if you want something, you have to jump at it or it will pass you by.

Delbert Gibbs

This year I dropped my mold and started forming my own morals and priorities.

Donald Wood

The class of '78 would like to remember those Seniors who will not be with us graduation night, but in our memories forever.

Greg Baker

Chris Briethaupt

Jim Rachel

The athletic program at Permian has distinguished itself throughout the state. All of the sports are respected and honored in many ways. The ability and sportsmanship of the Permian athlete is outstanding. The athlete works hard to make the word Mojo esteemed statewide. To about 350 students, sports bring the good life.

FOOTBALL

Mojo Coming Through. Fullback Mark Graves follows the blocking of Chris Berger in the Abilene Cooper game.

The 1977 Permian Panther football team kept the tradition of Mojo alive across the state. On the way to the quarter-final championship, the Panthers won many awards and honors as well as several school records.

Under the coaching of John Wilkins and five outstanding assistant coaches, the Panthers' record was 10-0 going into the play-offs.

Many things highlighted the '77 season to make it one of the most memorable in PHS's history. Pre-district foes were polished off without even scoring a point against Mojo. District play started with an illness overtaking Coach Jack Jacobson. Coach Jacobson was missed by everyone. Mojo fans have much to remember from district play. An explosive offense, not always common at Permian, and the district's toughest defense were so powerful that Permian rightfully won the 5-4A district bell. Rivalries filled the 5-4A schedule, and for Permian football it was a great year against rivals. The Panthers downed Midland Lee in front of a partisan Mojo crowd. After three long years the Panthers broke the Bobcat jinx by a 16-13 decision that pleased Mojo. And for the thirteenth year in a row, the Panthers won a 6-3 battle for the city championship.

A Look At Defense

Through the years the Permian defense has been known for its stingy play. 1972 and 1975 were known for their talented defenses, but the 1977 Panther defense was the finest in the school's history. They set three of the school's major records. The defensive squad this year allowed the opposition the fewest points, 70. The opposing teams gained fewer yards than any previous year, 2008. This year's defense also allowed the fewest yards rushing, 1060.

A Look At Offense

The Permian offense this year was a very talented group. They were able to score over 300 points in the fourteen game season. The '77 offense has the distinction of scoring more points than any other Permian team in a single game, 64. There were no stars as such, but a number of players received post season honors. One lineman and two running backs were named All-district. Four linemen received honorable mention. Tommy Sager was named first team All-state on the offensive line. The kicker was also named All-district. Instead of the usual eleven starters this year there were twenty starters. They all combined for an outstanding offense.

BASKETBALL

The 1977-78 Basketball campaign provided many memories when it drew to a close. From the beginning of the year the roundballers worked and sweated for the varsity season and the district competition. The team this year consists of eleven seniors, three of whom are one year lettermen. They are Huey Chancellor, Randy Wilson, and David McColloch. Steve Northcutt, Gary Hix, Teddy Whitmire, Steve Neal, Rickie McManigle, Donald Wood, Gary Wynne, and Steve Chappell rounded out the team, and Leon Pugh was the manager. From the overnight stays on basketball tournaments, to the long trips, the team played ball and had a good time. The election of Mary Long and Kathleen Crowl as managers provided just the right amount of the female touch for the squad. Cathey Perkins was also elected Basketball Sweetheart. Along with all the special things within the squad, the student body supported the team with enthusiasm.

The 1978 Track and Field program at Permian started off with a look of experience. The Panthers had 12 returning lettermen and five of them were two year lettermen. The field events were to prove to be strong point winners for the team. Both of the hurdle races were a plus in Permian's favor. All of the events combined for a strong team at the district meet.

The 1978 Baseball team has shown some potential in that the past two J.V.s had excellent records. They had seven returning lettermen and two were starters last year. Most Successful Year Yet

November '77 marked the closing of Permian's third year of girls volleyball. The team had a very rewarding year, with nine senior members making up the squad. District and non-district wins were plentiful. Respect and admiration were gained for the Panthers by surrounding opponents, who in three short years witnessed the molding and joining together of girl athletes to form a unified band who were all dedicated to one idea: to win.

First half of district play was completed with a 7-0 record, while the second half, not quite as good, came to an end with a satisfying 5-2 win-loss record. Sharing rights for the district title qualified the Panthers to meet the Big Springs Steers, who also held partnership for the honor. The confrontation was held in Andrews, November 12. After two hard fought games, the Panthers were forced to leave the court accepting a loss. In spite of the defeat, exemplifying Mojo pride and spirit, with heads held high, the girls finished their season. Although falling short of their set goals, the Panther females built a high reputation and an abundant amount of respect for themselves and the sport of volleyball from area peers.

Caren Ficsher received a 5-4A All-District honor, while Kathleen Crowl and Lynda Harbin were named All-District Honorable Mention. Tami Williams, along with All-District, was named to the All-State team.

Tennis Team A Powerhouse

Permian's 1977-78 Tennis Team continues to establish Permian as a powerhouse in tennis. This year's team boasted a 17-3 record for the fall. For the third straight year the team retained its title as city champions.

Highlights of the year include wins over the following teams: Lee, OHS, Big Springs, Lubbock Coronado, El Paso Eastwood, Wichita Falls High, and Wichita Falls Rider. The team placed a strong second in the Regional Team Tournament losing by only 3 matches to the eventual state champions. Then advancing to the State Team Tournament the team beat Wichita Falls High and Wichita Falls Rider, and lost by only 2 matches to the eventual runner-up San Antonio Churchill.

Fourteen lettermen returned to this year's team with high hopes of winning the district team championship. The success was aided by six seniors, five of whom have started since their sophomore year. Several individuals had excellent chances of advancing to the Regional and State Tournament. One of these chances included the girls doubles team of Lewis-Miller, who advanced to the State Quarter-finals in 1977 and are undefeated for the 1977-78 school year.

GYMNASTICS

Jeff Townsend strains for perfect form on the Parallel Bars.

Gymnastics Year Round

The 1978 varsity gymnastics team consists of seven men and women. The team works many hours learning various skills and perfecting their routines for the competitive season that begins in December and ends in April. This year the team has a great deal of talent and desire, and could prove to be one of the strongest teams in the history of Permian. Since 1972 the gymnastic team has won six Regional Championships, the State Championship in 1975, runner-up State Champion in 1976, and third in the State in 1977. Twenty-five state awards have been won by Permian gymnasts during this time, including three State Champions, and numerous All-State Awards.

The teams compete four gymnasts in each event and two of the four must be All-Around performers. In competition the team score is determined by the top three scores in each event. Therefore, for a team to be strong they must have depth in every event. The women compete in floor exercise, uneven bars, vaulting and balance beam. The men compete in floor exercise, rings, pommel horse, horizontal bar, parallel bars and vaulting.

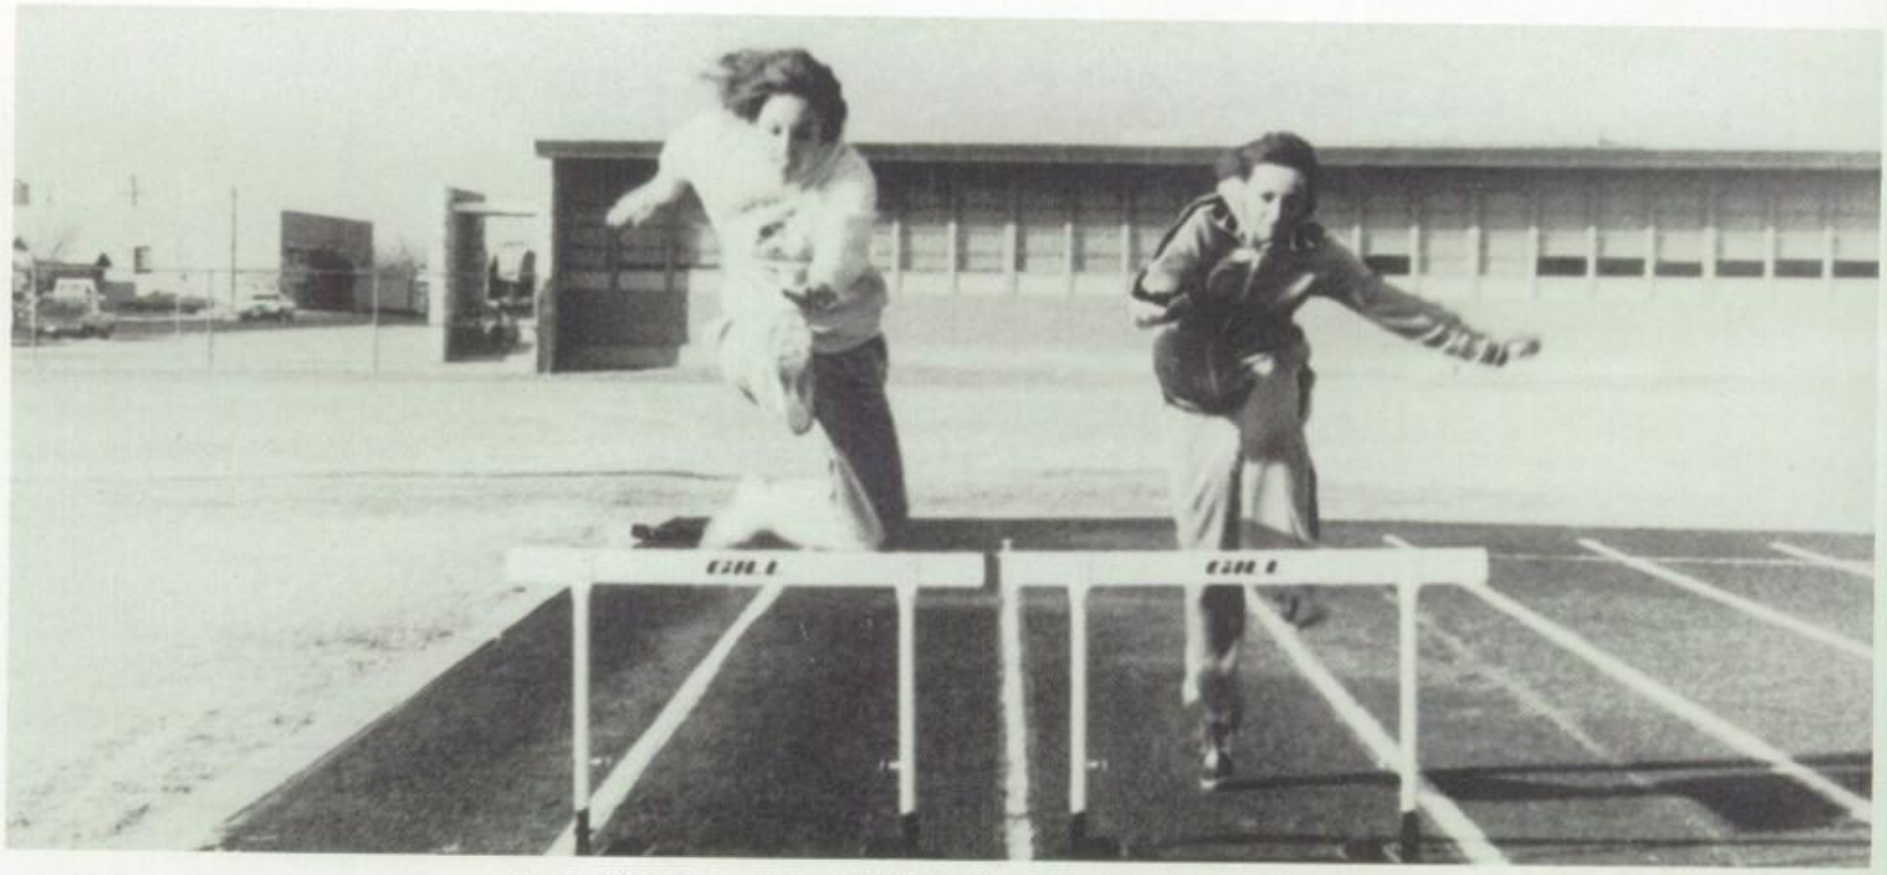
GIRLS TRACK



Caren Fischer and Tami Williams hurdling for the finish line.

Dedication Part Of Teamwork

The UIL girls track program began at Permian in 1975 under the coaching of Gladys Chancellor. The girls worked hard and with dedication became a great team.

There are nine running events. The 100-yard dash, 220-yard dash, 440-relay, 880-relay, mile relay and the 80-yard low hurdles. Field events include long jump, triple jump, high jump, shotput and discus. In competition a trackster may participate in three running events and two field events, or three field events and two running events.

In order to advance to the regional meet in Lubbock a girl must place first or second in district and from there must place first or second to go on to state competition in Austin.

The girls start working when the school year starts and get accustomed to the climate for conditioning to start the season in February. Track meets are held all over Texas and parts of New Mexico within 300 miles. Some meets call for getting up and being at school at 4 a.m. This calls for the dedication part to step in to help the girls get ready for the meet.

For the girl trackster at Permian it takes faith and confidence in herself and her teammates to make the season successful.

GOLF

Chas Weatherby and Jacque Daiss proved that the game of golf is not a one sided game.

New Coach Paces Team

Permian welcomed a new golf coach this year, Ed Brooks. Coach Brooks came to Permian from Odessa High and is working hard with the Panther golfers. A great golfer himself, Brooks is known for his rounds of golf that are under par.

The devoted golfers practice about five or six hours a day at Odessa C.C. or Sunset C.C. They practice seven days a week to keep their game in top shape.

Returning lettermen this year consist of four seniors and two juniors. Seniors are Chas Weatherby, Kelly Moran, Greg Ashly and Ricky Holland. Juniors are Kent Stallcup and Jacque Daiss. Moran and Weatherby are co-captains.

The varsity boys traveled to invitationals in San Angelo, Del Rio, Wichita Falls, Midland, and a tournament in Odessa. The J.V. attended tournaments in Big Springs, and Sweetwater.

Jacque Daiss's schedule included invitationals in Plainview, Lubbock, Kerrville, and Amarillo.

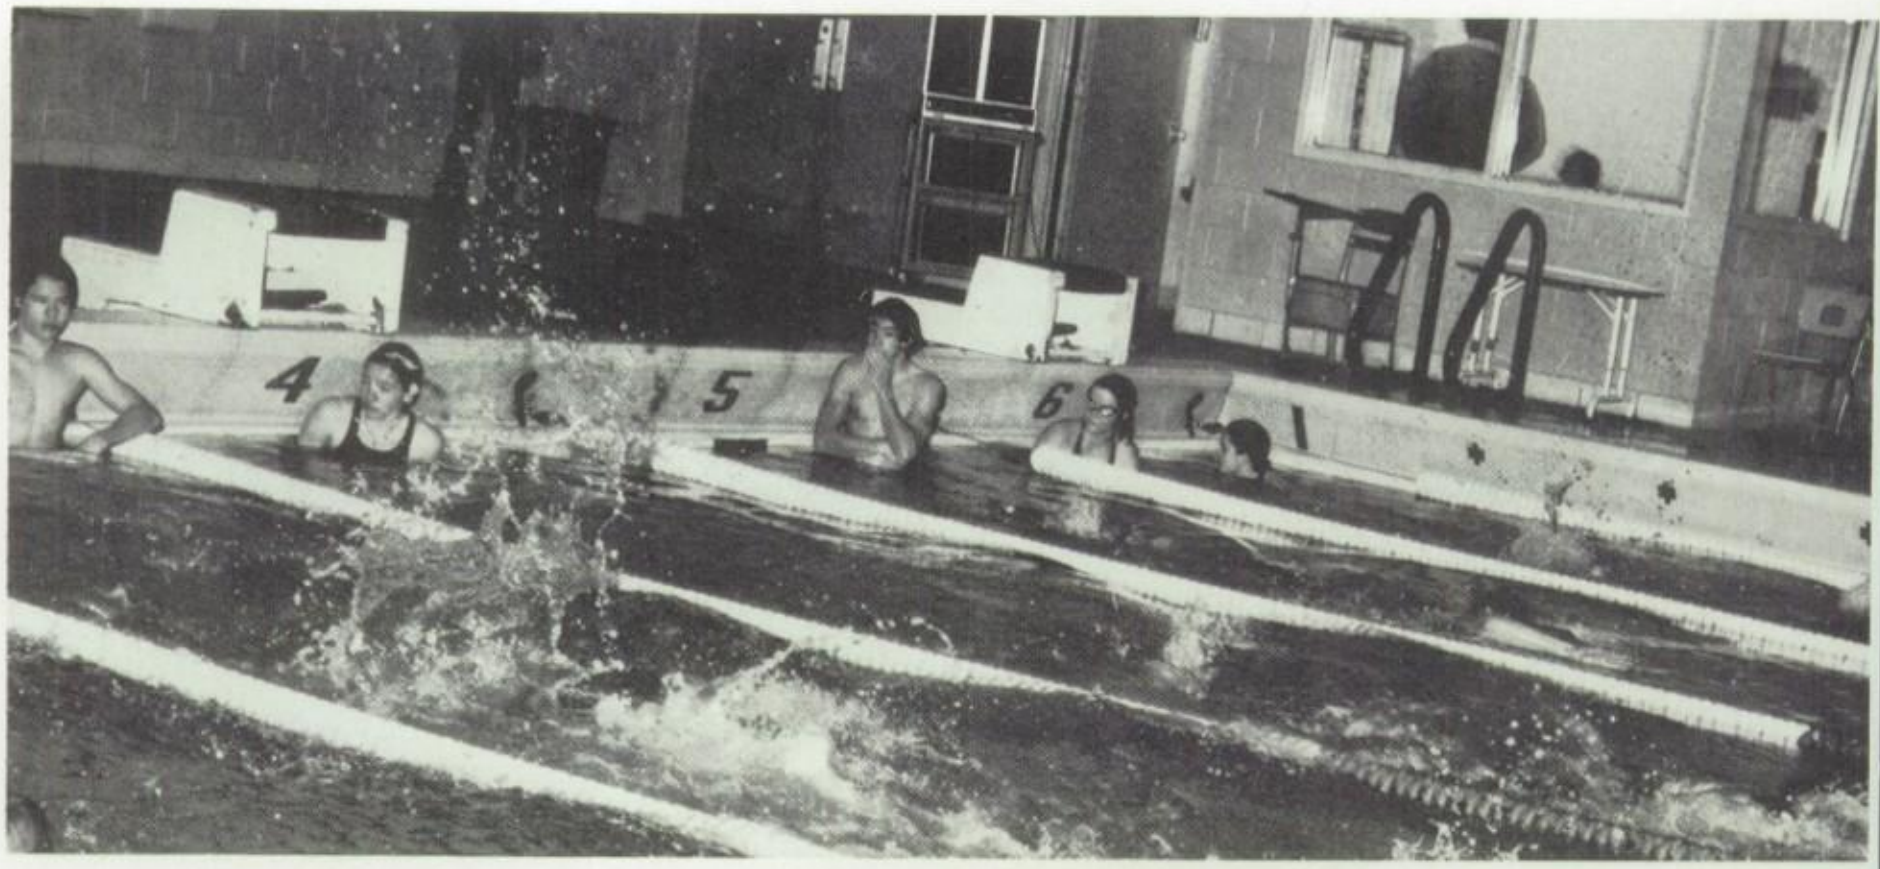
SWIMMING



Swimmers wait their turn to take on the waters of the Permian High pool.

Swim Team Has Memorable Year

Permian was represented by a highly competitive swimming team in 1978. The team was supported by a number of returning lettermen, seven on the boys' squad and four for the girls.

Leading the charge for the boys was lone third-year letterman Morris "Mo" Palmer and team captains David "Jo" Jordan and Jeff Lambeth. A large contribution was also made by senior Kurt Gilchrist along with the rest of the Panther traveling squad.

The girls' team, although short on experience, did surprisingly well. Captains Emily Gebel and Allissa Jenkins, along with sophomore Lisa Yielding, made up the backbone of the team. The girls were bolstered by first-rate divers with Jenkins and Xan Joines returning to their second year of action and Colleen Kiebler doing well as a rookie.

The swimmers worked up to four hours a day swimming over five miles and lifting weights. This hard work and dedication combined with fine talent paid off. When meet time rolled around, Permian was a major swimming powerhouse, ranking consistently within the top five of the thirty regional teams.

The diving program at PHS produces many great dives.

GIRLS BASKETBALL

Elizabeth McCleskey passes the ball to Lori Powders against two Midland High defenders.

Second Year Brings Enthusiasm

The girls basketball team competed in its second year of UIL play. Coach Norma Allbright had eight returning and four new players for the varsity and a fresh crop of talent to make up the junior varsity squad.

A major change came in the game for the junior varsity. They introduced the change to full-court play. The girls responded with an inspiring record.

The varsity, the first girls basketball team in Permian's history, continued playing half-court ball. Three juniors and nine seniors made up the squad. A tremendous amount of improvement from the previous year was shown by each player and a spirit of comradery and enthusiasm was developed. The team became truly competitive.

Through victory and defeat, celebration and hard times, these girls proved that girls basketball was at Permian to stay.

Powders rushes to stop opponent's drive.

For most people, school is more than an 8:30 to 3:30 day consisting of six classes and lunch. For the majority of students, the end of the day bell means the beginning of the fun part of school. After-school activities, clubs and organizations make up the part of school that brings people together. Classes bring students together, but working with others toward a common goal is what makes lasting friendships and the good life.

National Honor Society

The National Honor Society is more than just another club. It is, as its name says, an honor. It is one of the few clubs that does not open the membership to everyone. Membership in the honor society is not a gift, it is an honor which must be earned. Good grades alone do not insure membership. Members must be outstanding citizens, school leaders, and sound in character. Once the membership standards are met, inductees must continue to maintain the high moral standards expected of school leaders. The National Honor Society is not an organization just for "smart" people. It is a nation-wide society for active, well-rounded leaders of tomorrow.

Student Council

"Nobody Does It Better" than the Student Council. No school can hope to improve and be a fun place to go without sound leadership. Likewise sound leadership can't be expected to accomplish anything without a student body that cares. The Student Council has worked to provide strong leadership for Permian's student body. Although each homeroom elects a representative, any student may become a service member by attending three meetings. Each year the Student Council sponsors many projects to promote school spirit and community service. Some of this year's projects included: spirit chains, tee-shirts, the blood drive, and the ever-popular Goo-Goo's.

The '77 Pepettes

The good life at Permian just might not be quite as good without one group of dedicated and spirited Panthers, the Pepettes. This select group of senior girls, finished the term begun in the junior year. They make many contributions to the good things of high school days, and often at the cost of their own schedules. A Pepette's routine each week includes designing two new posters for display in the halls and at games, baking treats for "her guy," decorating his locker, preparing the skits for pep rallies, as well as cheering at all the games. In spite of the work, many Seniors consider having been a Pepette an integral part of Permian's good life.

Rainbow bumper stickers lauding the Permian Panthers and sold by the club could be found on many cars around town. On the academic level, members of the French classes participated in contests called quaternions and symposiums. These meets are composed of competition in varied divisions such as costumes, music, poetry, and art.

Future Homemakers Of America

The organization of future homemakers is an organization for young people that have a firm belief in the institution of family life. Growth is a key word of the chapter as they strive to better first themselves and then their environments. This year's efforts to come to a realization of their goals included work for a Cystic Fybrosis Foundation and the girls' participation in the annual doll dressing drive by the Salvation Army.

Peer Counseling

The unifying elements of one group at Permian are concern and the desire to help others. Peer counselors are the members of this group. Art Club

Learning to work with others, exploring personal capabilities, and gaining a respect for the world through art is what the art club is all about. Throughout the year, club members had the chance to visit art galleries, go on sketching trips, and participate in art shows of student work. The club's sale of "Mojo Christmas cards" was well-accepted, as were the brownies that club members sold at walk-around. Another imaginative fund-raising project was painting Christmas windows. A Spring Art Fair featuring silk-screening and airbrush work, besides having art on sale, was another feature of this year's club. Social activities such as skating parties or the exploration of natural West Texas phenomena rounded out the list of the club's activities.

Throwing paper planes, playing "Star Trek," and star-gazing were some of the activities in which members of the Science Club found themselves involved in '77-'78. The aim of these activities was to enable members to see different areas of science and engineering and to aid in possible career choices. A paper airplane contest, involving the entire school, was their main undertakng. The active organization also made many tours such as the weather station and McDonald observatory besides hosting various guest speakers.

Speed Math

The Speed Math Club is not a bunch of "whiz kids" having meetings to spout off formulas. On the contrary, members work to improve their math skills through work in number sense and/or slide rule areas. While slide rule is self-explanatory, the name number sense can be misleading, for it involves all branches of mathematics such as probability, trigonometry, algebra, number theory, and finally, calculus. The math team competes in several out-of-town practice meets, involving both mathematics and science tests in preparation for U.I.L.

Electronics Club

An Altair 8800 micro computer with CT-64 video terminal and a 16,000 character memory was the "sweetheart" of the Vica Electronics club this year. Members of the group completely built the computer using a kit. This project served a dual purpose: the assembly of the mechanical mind provided students with practical experience in applied electronics and the completed project provided students the chance to learn first-hand of the operation of a computer.

Of The Good Times

Cosmetology

Cosmetology is one of the most demanding, rewarding, diversified, and quickly growing specialties in the world today. Members of the cosmetology classes are aware of this and spend half of each school day in this area. Beginning a new format this year, the cosmetology classes meet at Odessa College. Students in this program work first to improve themselves before passing on their knowledge to others. Some of the skills the cosmetologists learn involve permanent waving, hair coloring, hair styling and shaping, facials, and manicures.

Industrial Engine Repair

Industrial Engine Repair is a course designed as a pre-employment shop program for skill occupations. Members of this club receive approximately 1800 hours of instruction during the three hour daily classes which cover two years. Regular high school classes fill the remainder of the engine repair student's day. Class members have been interviewed by counselors and have taken manual dexterity and aptitude tests. Upon completion of the course, students are able to disassemble and reassemble inline v-type engines, and identify and explain all parts and their function.

"I always thought the engine went on the other side."

Home Economic Cooperative Education is one facet of the vocational education program at Permian. The format of the program is one in which the students attend high school classes for half of the day and an outside job the other half. HECE holds these eight ideas as their purpose: 1. To provide opportunity for self-development and preparation for family and community living and employment, 2. To strengthen the function of the family as a basic unit of society, 3. To encourage democracy through cooperative action in the home and community, 4. To encourage individual and group involvement in helping achieve worldwide brotherhood, 5. To institute programs promoting greater understanding between youth and adults, 6. To provide opportunity for decision-making and for assuming responsibility, 7. To become aware of the multiple roles of men and women in today's society, and 8. To develop interest in home economics, home economic careers, and related occupations.

Quill And Scroll

"Ye shall know the truth and the truth shall set you free" is the motto of the Quill and Scroll, an honor society for high school journalists. Only junior and senior students in the upper one-third of their class, who maintain a high standard in journalistic work, are eligible for membership. As set forth in the society's induction, members endeavor to uphold the ideas of truth, learning, leadership, loyalty, and friendship.

Permian Press

The Permian Press is published bi-monthly by the two staffs. Both staffs work together to keep the student body informed. By dividing into two staffs, the fifteen members have been able to put out two papers a month for the first time in several years. Besides publishing the newspaper, the students compete in UIL Journalism contests. Students must have completed Journalism I and have the instructor's approval to work on the staff. The goal of the staff is to make each paper a little better than the one before.

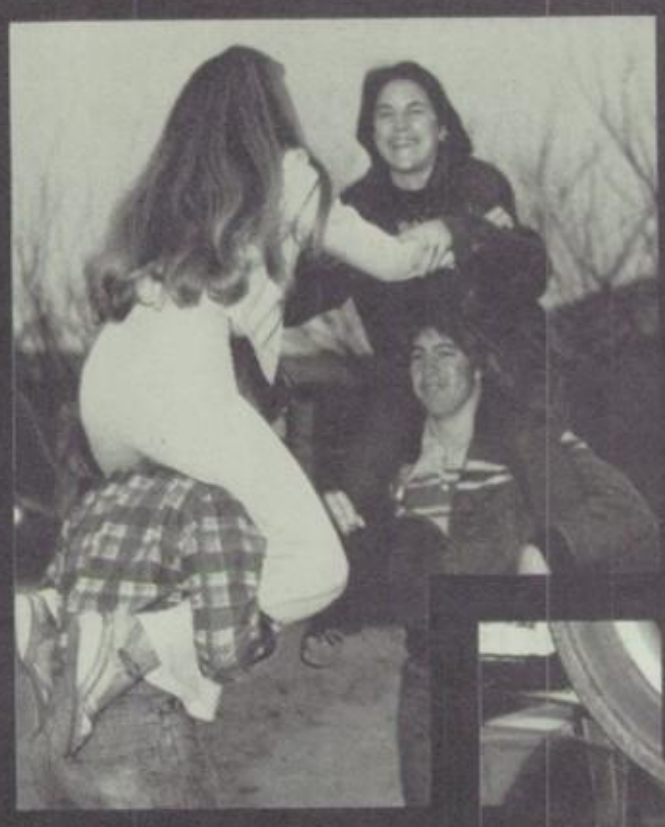
Moments, Memories And

The Good Times



Juniors . . . They are in the middle. Having completed their sophomore year, they have received experience. Not yet Seniors, they anticipate the problems and hassles they will soon have to face. They will be the proud and distinguished class of 1979. Then, when the year is over, they will reflect on the good life, and seek out a better one. Juniors . . . they are special people.

Junior Board

The junior board, chosen by the junior class, sponsors several school activities. This year, twenty people were elected to serve as members. The biggest and most important event carried out by the junior board is the Junior-Senior Prom. In order to raise enough money to sponsor the prom, junior board engages in other activities such as selling the school directory, selling flowers for Valentine's Day, and sponsoring a western play-nite. These are just some of the ways that the Panther junior board contributes to the good life.

To Enjoy The Good Life; That

The good life of Permian began with the new school registration. Registration was new to everyone as students poured through the doors with hopes to establish a place here at Mojo Land. With registration came expectations of fun-filled pastimes, recreational enthusiasm and readiness for the good life. Mojo Magic had begun. Students soon enjoyed the newness of the school year, the pep rallies, playnights, and Mighty Mojo's sports along with book reports, algebra tests, and chemistry. Each school day brought refreshing brightness as students united to enjoy and find the goodness in one another.

The Good Things In Life

What can you say about Permian's pep rallies? Some yelled and got involved; some didn't. For those who did, they experienced the spirit and pride of the Mojo Force as the pep rallies supplied support for the climbing Panther team. Mojo Magic and Mojo Love filled the air.

"Nobody Does It Better"

Half-time during the Abilene game at W. T. Barrett stadium was filled with hushed excitement and the stirrings of the thousands of Mojo fans as they impatiently waited for the announcement of the Homecoming Queen. What a surprise they got! For the first time in Permian's history, two Homecoming Queens were announced: Lynda Harbin and Stacy Parrott. The theme "Nobody Does It Better," the dance students went to with their own special date, and the fancy mums will provide everlasting memories of a very special night.

Pride. These Days Were Ours;

The Fine Arts department presented an all school musical called "Carnival." From harem girls to strong men, fat women to gypsies, the cast consisted of a variety of characters. A combination of teamwork from the orchestra, band, choir, and drama departments provided a fun-filled evening for parents, relatives, friends, and students. The trio of directors, Coy Sharp, Randy Talley, and Charles Nail, directed an exciting musical which helped to fulfill the good life.

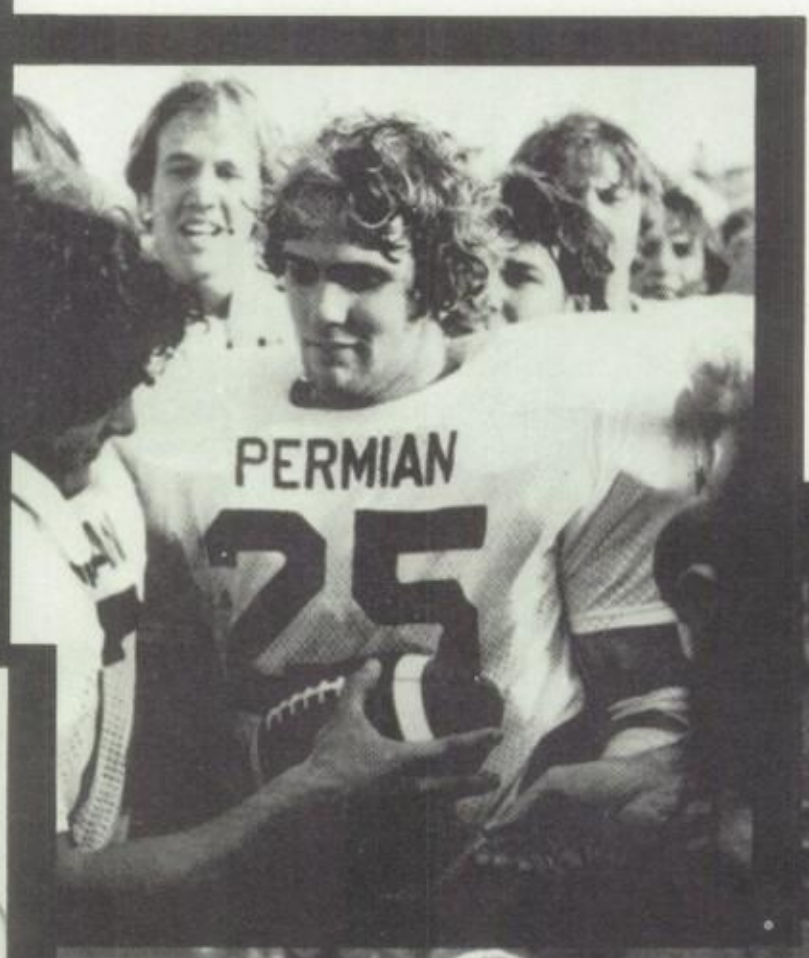
We're Not Just A Name; We're A Power

Ask a Mojo fan how the Permian football team is doing, and he will give you the time of day. He will tell you of the Panther's super defense and hard-working offense, of John Wilkin's coaching, and more than anything else, the spirit, pride, and determination that put the football guys together to make one super, team effort. All in all, he will tell you with the pride of a Mojo fan that the Panthers are the best in the Little Southwest Conference.

Everyone knows that football, especially high school football, is Odessa's favorite pastime, and the Permian Panthers never let the fans down. Even if they can't always win, they always play a super-great ball game.

What makes Mojo's team so great? Each member of the team is his own individual; each has enough pride and determination to know that being No. 2 is not good enough. Each has the ability to surpass his own goals, and with the help of Permian's coaching staff, the guys find it hard to fail. Panther Action '77 was no exception. The guys put forth a super effort to make their climb to the top. Through spring training, and rotation; through hot summer days and football practice after school, the guys put it all together as Mojo's coaching staff provided guidance with a firm hand. The Panthers won game after game, victory after victory, until the district 5-4A crown and the district bell were in Mojo's hot little hands.

Odessa Permian readied themselves for the up-coming tussles, the glory and triumphs, or the intensifying fear of losing a hard-fought battle. Odessans rallied to support the district team on their way to state. Excitement stirred among the student body, friends, parents, and the guys themselves. Mojo Bumper stickers showed up everywhere, along with colors of black and white, and shouts of "Mojo." But it was not so much the excitement as it was the over-all feeling of closeness and unity among all who were associated with the Panther's trip to

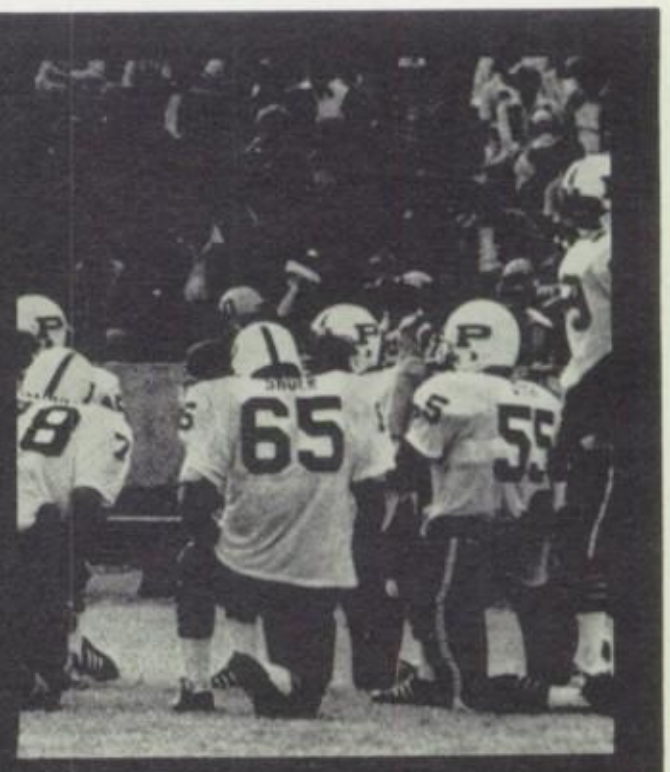


the top; the feeling that we were there with the football team supporting them and that our feelings would not be so different from theirs.

We went with them to the bi-district game in Abilene where they showed up the Denton Bronchos, and then back again as they tussled with the Arlington Lamar Vikings for the regional title. For the quarter-final game, we entertained those tough Plainsmen with their outstanding quarterback from Lubbock Monterrey, once more triumphing to go on to the semi-finals game.

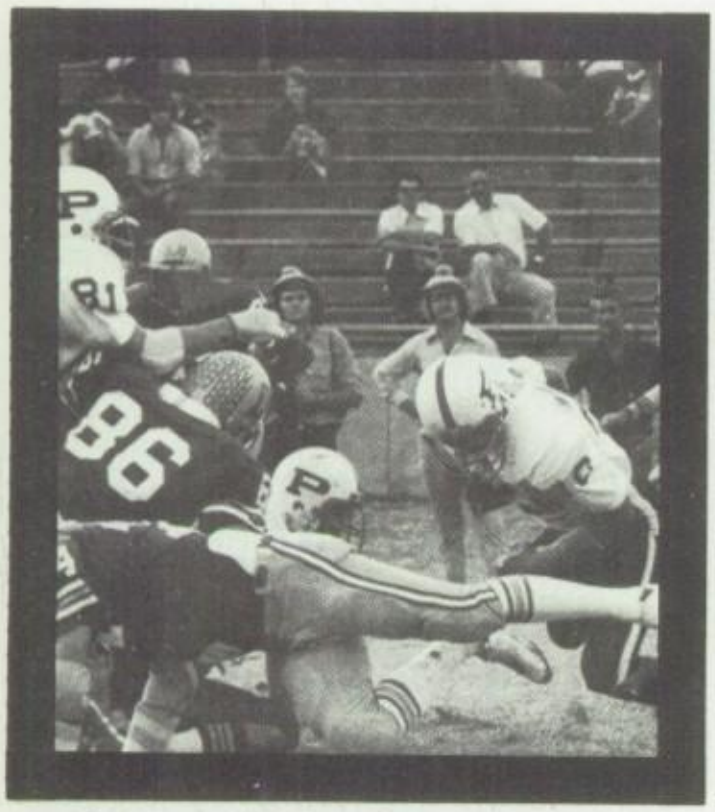
The Game. What can we say? We lost. In the game before the state play-off, our luck had run out. Plano with their magical three points from their lucky field goal defeated us by the numbers on the scoreboard. Mojo's football season had ended, and the lumps in our throats and the tears in our eyes gave way to the cold, bitter, sadness of accepting. But, we held our heads high; we still had our feelings of closeness, our feelings of pride. We still had that special quality of the will to succeed, to strive for the good things in life and not to be hindered by the bridges or obstacles. The graduating Class of '78 will leave with high hearts because of the triumphs of Mojo's team that brought many together. Together, we knew that Mojo Magic would return once again and that there would never be an ending to the Great Mojo legend. We will come again, and we will brand our name into school boy football history again and again. Panther Action '78 will bring its spirit, pride, and sprinkles of glory to start a brand new story.

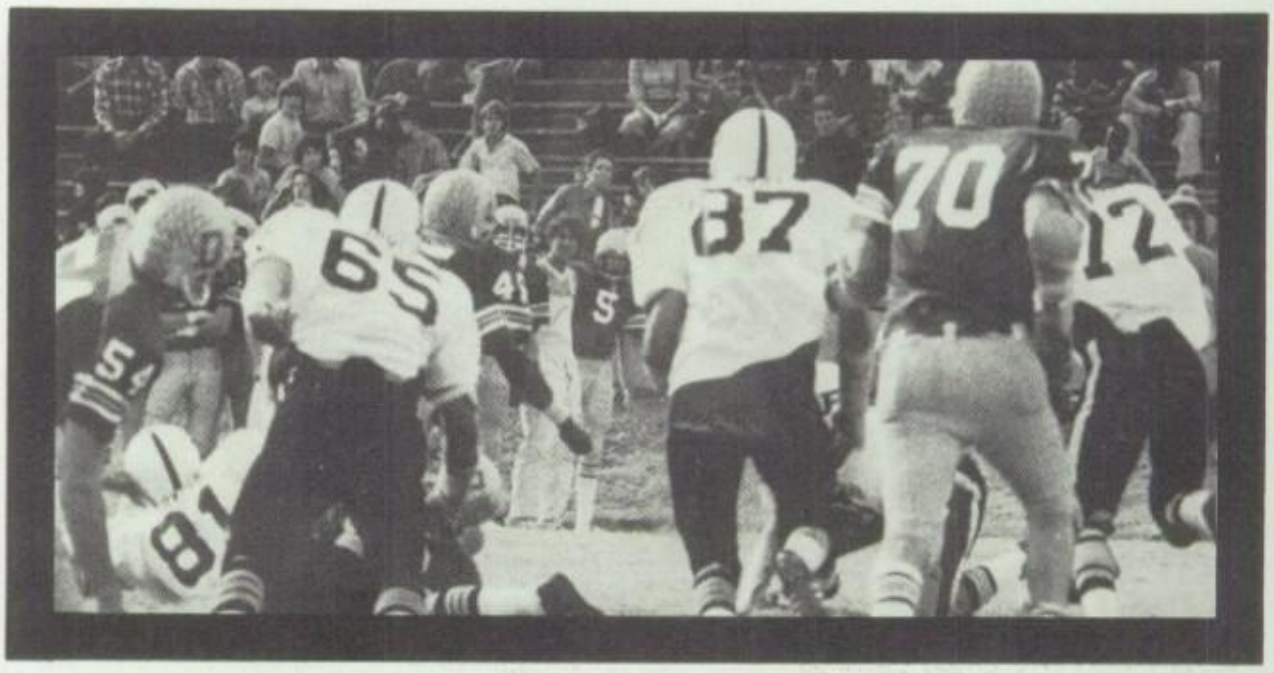
Determination And Pride Makes A Great Team A Legend

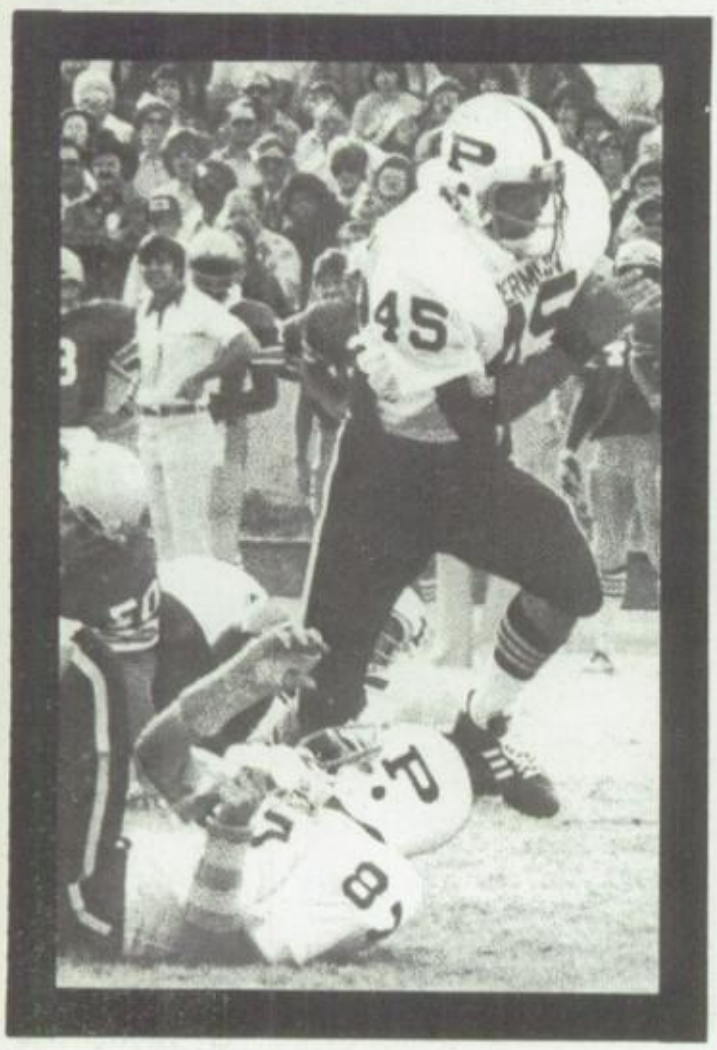


We Caught A Ride Upon A Shooting

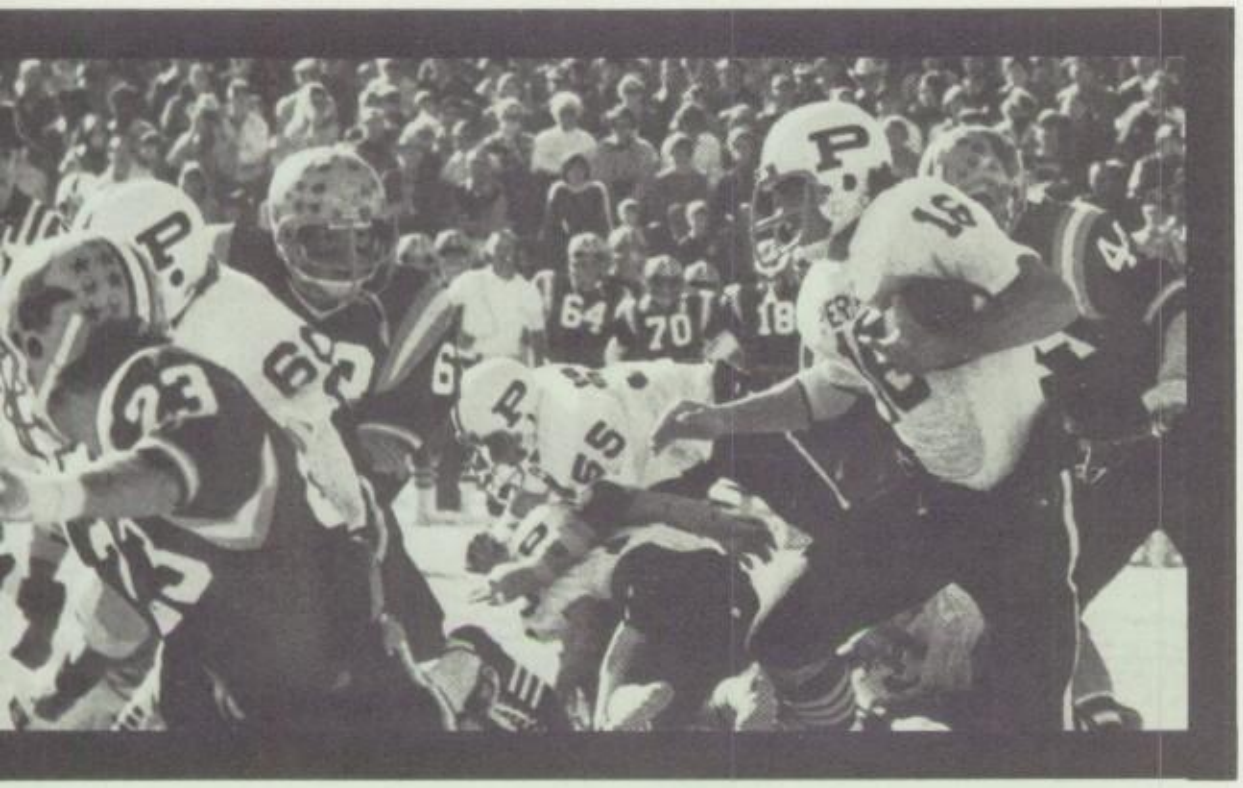
The Panthers had done it again! Winning against rival San Angelo, Mojo clinched the 5-4A district crown. With this tucked in their belts, they skipped happily off to P. E. Shotwell stadium in Abilene to go up against the Denton Broncos for the Bi-District title. Fans waited until the fourth quarter for Mojo's Magic to outshine the Broncos. Permian scored one field goal, three touchdowns, including a super-sacking of Denton's quarterback in the endzone for a safety by David Clyburn. The final score: 26-0. This was Permian's fifth shutout for the season.





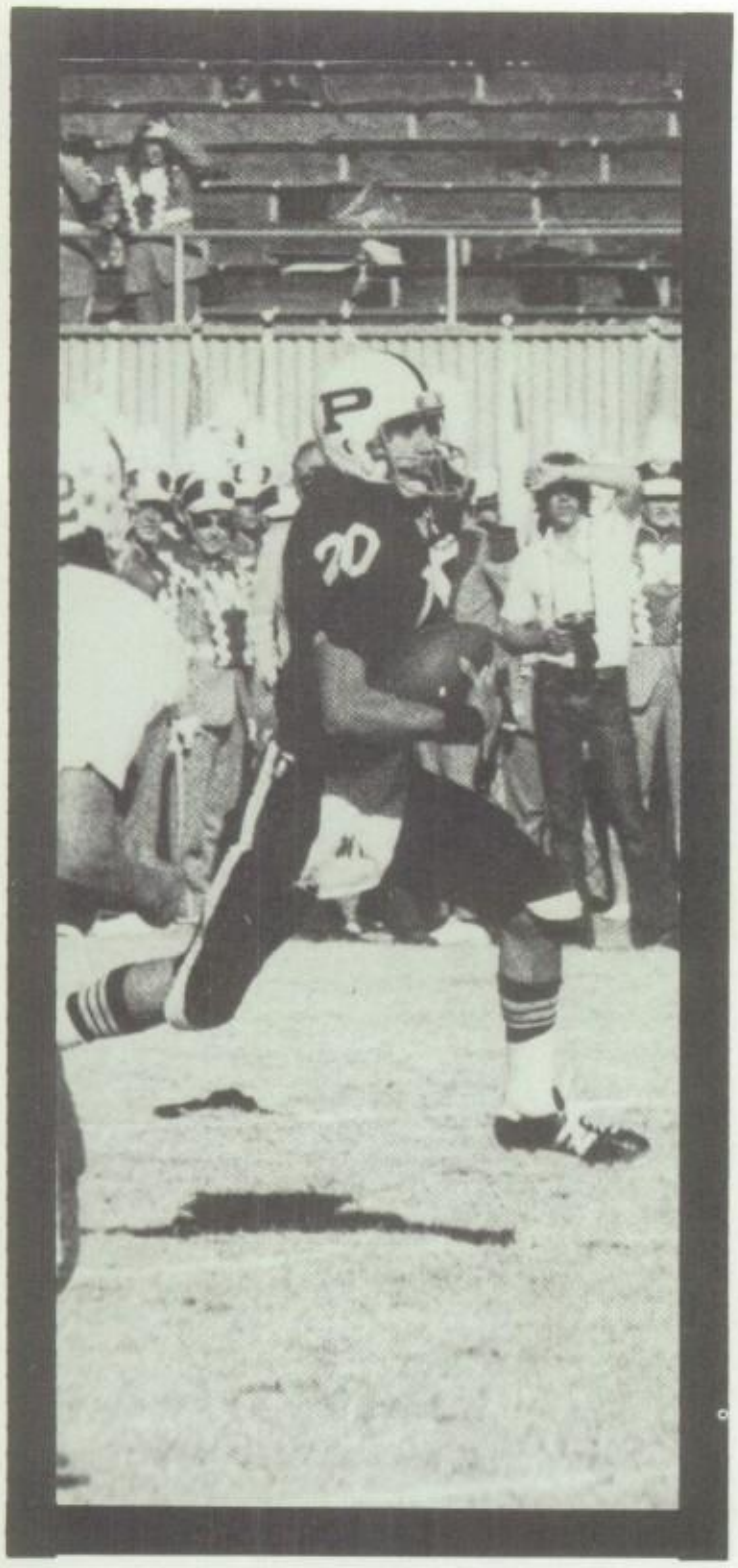


Star Blazing Into The Heights Of



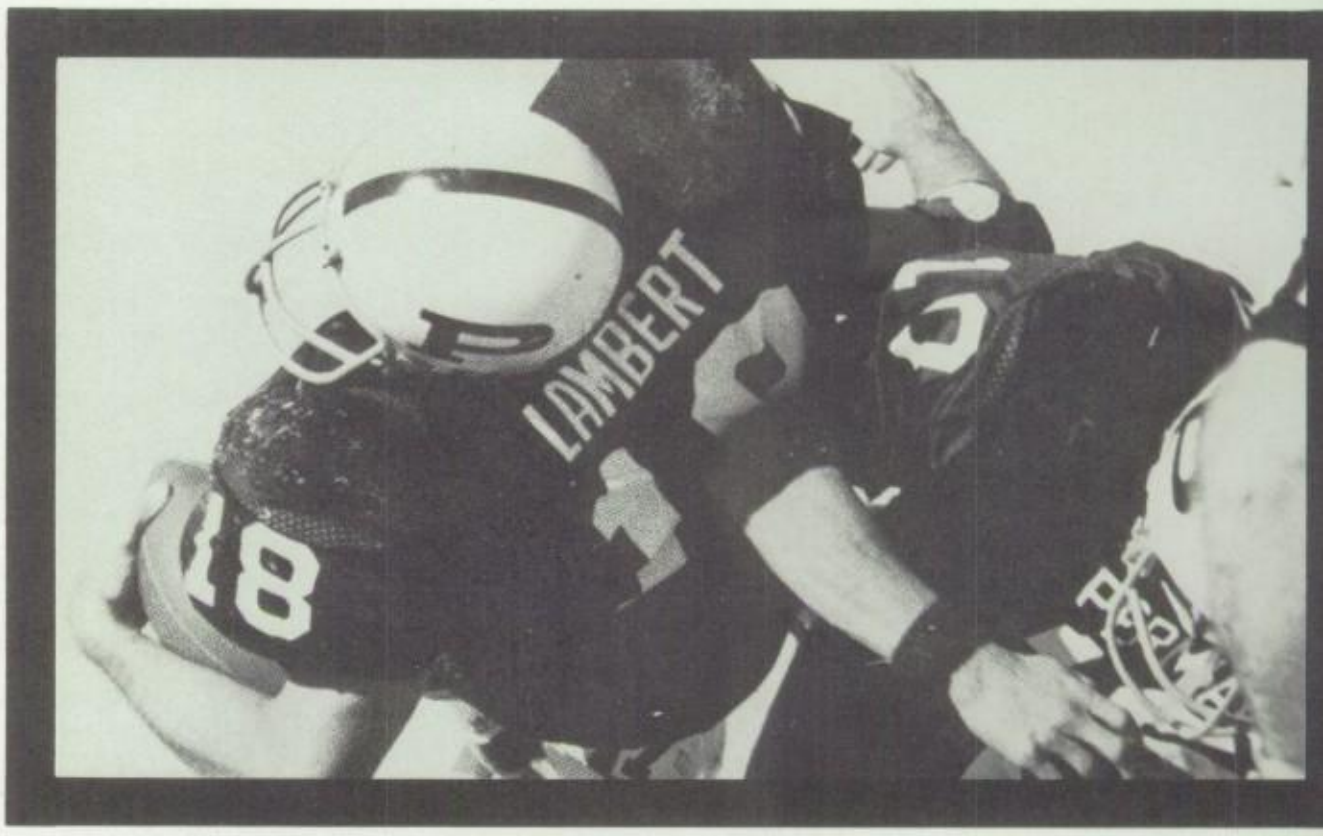
Mojo spirit was flying high. The Panthers advanced to the regionals once again at P. E. Shotwell stadium to play Arlington Lamar for a trip to the quarter-finals. The going was tough. The Panthers ended the first half with a tie of 7-7. The Mojo came back with an explosive assault with two fumble recoveries and four pass interceptions over Lamar. And so, after five touchdowns, the score: 35-7.

Glory. We Took A Chance; Lost It, But



The Black Cats put it all together one more time. The game against the Lubbock Monterrey Plainsmen turned out to be an explosive defensive game. It was tough going; the Plainsmen were big, rough, and they boasted the best quarterback in the state. They came stomping out onto the field with spirits raised; but the Mighty Mojo Force rallied to hold the Plainsmen back.

Lubbock, try after try, could not break across the Panther barrier. They managed only one field goal. The Panthers scored one touchdown making the score 7-3 and giving Mojo the quarter-final title.



We Gained Everything

This was our last game but not before we gave the Plano Wildcats one heckuva fight. The Panthers had more penetrations, first downs, and rushing and passing yards than Plano. However, Plano with their three points won, because the number on the scoreboard is what counts. Objectively, Mojo had more turnovers and fumbles than in any other game all season. The score was 3-0; the Panthers had lost the game, but not its spirit, pride, and determination that makes a great team a great legend.

The main function of the Sophomore Board was to devise projects which gave the class of 1980 a sense of identity. One such project was Sophomore 7-a contest which attempted to boost spirit and draw students to a Varsity basketball game. The board also created a Welcome Committee which introduced new students to Permian. This year, the Board took it upon themselves to provide the leadership necessary for the Sophomore Class to dominate the juniors and seniors in the annual Spirit Chain Contest. Through such activities, the Sophomore Board assisted their classmates in finding the Good Life.

The good life . . .

This year has been a year of joy, disappointments, and hope. Although there were hard times, they were necessary to make every person appreciate the good life even more.

Memories of the good life included open registration, which added to the confusion of the new school year; Homecoming, which was unique due to double Homecoming queens; play-off games, during which Panther backers suffered a severe case of "Mojo Mania"; the band, which continued to be the "Pride of Pantherland"; "Carnival," which successfully combined the talents of the student body; and finally graduation, which brought the good life at Permian to a close for the seniors. These special events made this year matchless in the minds of Permian's students.

To a diverse group, such as the Permian student body, the good life has many different meanings. We wish for you whatever it takes for you to attain . . .

. . . the good life.
